Argos Ring Sizing Guide

To use this ring sizing guide, first make sure you've got a ring that fits the finger you want to wear the new ring on, then:

1. Print this page at 100% (don't click on scale to fit or shrink to fit page).
2. To help you double check that this page has printed to the correct scale, please measure the line below on your print out:

   3cm

3. Place your ring over the circles on the printout and find the circle that fills the inside of the ring without overlapping.
4. The letter on the circle is the closest fit to your ring size.
5. Our ring sizer is provided as a guide only. For further assistance and a better idea of how the ring would fit, please visit our Jewellery counter in store.
