ZIGTECH TECHNOLOGY,
THE ZR SERIES OF
TREADMILLS PROVIDES
YOU WITH AN ENHANCED,
RESPONSIVE WORKOUT.**

SO HOW DOES THIS WORK?

ZigTech technology reduces stress in the glutes, hamstrings and shins by harnessing the shockwaves made whilst running. The zig-shaped treadmill cushioning absorbs the impact of heel strike and sends a shock wave along the length of the running deck to disperse high levels of energy, and ultimately assist your joints and muscles during exercise.
