# Safety and Care Advice

**Important** – Please read these instructions fully before starting assembly

- Check you have all the components and tools listed on the following pages.
- Remove all fittings from the plastic bags and separate them into their groups.
- Keep children and animals away from the work area, small parts could choke if swallowed.
- Make sure you have enough space to layout the parts before starting.

- During assembly do not stand or put weight on the product, this could cause damage.
- Assemble the item as close to its final position (in the same room) as possible.
- Assemble on a soft level surface to avoid damaging the unit or your floor.
- Parts of the assembly will be easier with 2 people.

• To reduce the likelihood of damaging your product please ensure that your power drill is set on a low torque setting.

• **Warning:** Maximum allowable weight for this shelf is 7kgs.

## Care and maintenance

- Only clean using a damp cloth and mild detergent, do not use bleach or abrasive cleaners.
- From time to time check that there are no loose screws on this unit.
- This product should not be discarded with household waste. Take to your local authority waste disposal centre.

## Handy Hints

- Assemble all parts and bolts loosely during assembly, only once the product is complete should you fully tighten the bolts
- Regularly check and ensure that all bolts and fittings are tightened properly.

# Components - Panels

If you have damaged or missing components, call the  
Customer Helpline: Argos = 0345 6400800

Please check you have all the panels listed below

**1** Shelf (120 x 25cm)

**2** Support (63.2 x 14.8cm)  
(pre-fixed in the shelf)

(medium & large)

Pencil

7mm Suitable drill bit  
(for use with wall plug)

Drill

Small  
hammer

Gradienter

Eye protection  
(when using a  
hammer or glue)

## Ruler - Use this ruler to help correctly identify the screws

The screws length is measured from the head to the point (30mm screw shown).

# Assembly Instructions

## Step 1

### Wall mounting

**a:** Take out Support **2** from the Shelf **1**.

**Important:** When drilling into walls always check that there are no hidden wires or pipes etc. Make sure that the screws and wall plugs supplied are suitable for supporting the unit. Consult a qualified tradesperson if you are not sure.

**a:**

**Note:** Wall plugs supplied are for solid wall only.  
The correct type of fixing must be used for your wall, seek professional advice if in doubt.

**b:** Position Support **2** in the desired location and check if it is horizontal of the wall.

Mark fixing hole on wall and remove Support **2**.

**b:**

**c:** Using a drill, predrill a hole according to the Support **2** at the desired height.

Use the Wall plugs **C** and Screws **A** to fix the Support **2** onto the wall.

**Note:** The flat holes on the Support **2** always toward underside.

**Important:** Before fixing please make sure the arrowhead direction always toward upside.

**c:**

# Assembly Instructions

## Step 2

### Finished the unit

**a:** Insert the Shelf **1** onto the finished Support **2**.

**b:** Use Screws **B** to fix the Shelf **1** onto the Support **2**.

**Assembly is complete.**

If you need help or have damaged or missing parts, call the **Customer Helpline:**

# A Guide to - Wall Mounting & Fixings

## Important note:

If plastic wall plugs are supplied with your product:

- these are only suitable for use in masonry walls.

If you are in any doubt about the correct wall plugs for your wall, seek professional advice.

Failure of the product due to using incorrect fixings is the responsibility of the installer.

**Important:** When drilling into walls always check that there are no hidden wires or pipes etc.

Make sure that the screws and wall plugs being used are suitable for supporting your unit. Consult a qualified tradesperson if you are unsure.

Hints:

- 1: General rule:**  Always use a larger screw and wall plug if you are not sure.
- 2:** Ensure you use the recommended drill bit to match the wall plug and hole size.
- 3:** Ensure you drill the hole horizontally, do not force the drill or enlarge the hole.
- 4:** Take extra care when drilling high walls, ceilings and ceramic tiles. Ensure wall plugs are inserted beyond the thickness of the ceramic tiles to avoid the tiles splitting or cracking.
- 5:** Ensure wall plugs are well fitted and are a tight fit in the drilled hole.

## Types of walls

You can use one of the following types of wall plug if your walls are made of brick, breeze block, concrete, stone or wood.

### No.1 "General Purpose" wall plug

Generally aerated blocks should not be used to support heavy loads, use a specialist fitting in this case. For light loads, general purpose wall plugs can be used.

### No.2 "Plasterboard" wall plug

For use when attaching light loads on to plasterboard partitions.

### No.3 "Cavity Fixing" wall plug

For use with plasterboard partitions or hollow wooden doors.

### No.4 "Cavity Fixing-Heavy Duty" wall plug

For use when fitting or supporting heavy loads such as shelving, wall cabinets and coat racks.

### No.5 "Hammer Fixing" wall plug

For use with walls stuck with plasterboard. The hammer fixing allows it to be fixed to the wall rather than the plasterboard. Always check the fixing is secure to the retaining wall.

### No.6 "Shield Anchor" wall plug Heavy loads

For use with heavier loads such as TV & HiFi speakers and satellite dishes etc.

## Care & Maintenance

**Safety:** Always check the fitting and location to ensure your safety in and around the home.

**Fitting:** From time to time check the fitting to ensure the wall plugs or screws do not become loose.
