## Enjoy the view

The Philips D235 Cordless Phone packs HQ Sound and a large, clear display in a sleek, ergonomic design. Enjoy smart privacy modes, great comfort and the convenience of an inbuilt answering machine – all in easy handsfree style.

### Nice and simple

- Easy to read 4.6 cm (1.8") display with white backlight
- Freestanding handset with a speaker for easy handsfree calls
- Up to 25 minutes message on your answering machine
- Programmable hot keys for quick dial
- Textured back cover for non-slip grip
- Up to 16 hours talk time on a single charge
- Privacy settings: call block & call barring
- Caller ID – so you always know who is calling\*

### Crystal clear sound

- Parametric Equalizer delivers pure and clear sound
- Optimized antenna layout for great reception in any room
- Advanced sound testing & tuning for superb voice quality

### Eco-conscious product

- Zero power emission when ECO+ mode is activated

**PHILIPS**

# Highlights

## 4.6cm (1.8") display

Easy to read 4.6 cm (1.8") display with white backlight

## Advanced sound testing

We test the sound quality of our DECT phones the same way as high-end headphone manufacturers do. Using an advanced ear simulator, we can accurately re-create the way people actually hear. This helps our acoustic engineers to measure and fine-tune things like frequency response, distortion and overall hearing perception, to create perfect voice reproduction.

## Caller ID\*

Sometimes it is good to know who is calling before you answer. And our Caller ID lets you keep track of who is on the other end of the line.

## Handset speakerphone

Handsfree mode uses a built-in loud speaker to amplify the voice of the caller, allowing you to speak and listen during a call without holding the phone to your ear. This is especially useful if you want to share the call with others or simply multitask.

## Non-slip grip

The rear of the handset is treated with a special texture for added comfort and better grip.

## Optimized antenna layout

Our optimized antenna layout ensures strong and stable reception – even in areas of the house where cordless transmission is difficult. Now you can take a call wherever you are in the house, and enjoy a long, uninterrupted conversation even as you walk around.

## Parametric Equalizer

Our telephones use parametric equalization in the digital sound processing to fine-tune the sound response back to the intended linear frequency response curve, delivering sound that is pure and clear, for each conversation.

## Programmable hot keys

Now calling the people you care about most is easier than ever. With simple one-touch dialing, you will never have to search for their number again. You can program up to 2 keys for instant calling.

## Up to 16 hours talk time

Up to 16 hours talk time on a single charge

## Up to 25 min. recording

Up to 25 minutes message on your answering machine

# Specifications

## Convenience

- Menu structure in the handset: List Menu
- Speakerphone - talk handsfree
