Assembly Instructions

Step 1

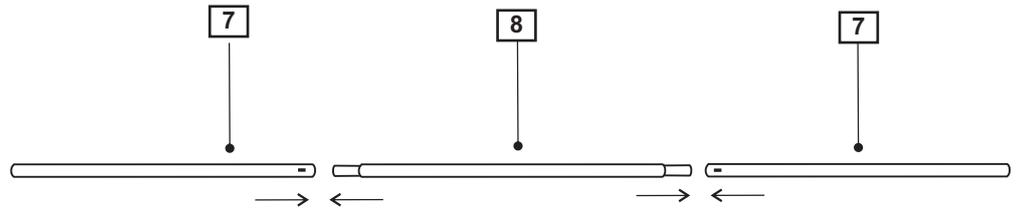

Assembling support poles

Insert support pole **8** into the support pole **7** ensure all the poles are fully inserted and secure.

Important note: Because of the size of this unit we recommend that it is built in the place intended for using.

Ensure to locate the unite on the flat ground free from obstruction, in a sheltered area away from wind and heavy rain as this will damage the unit.

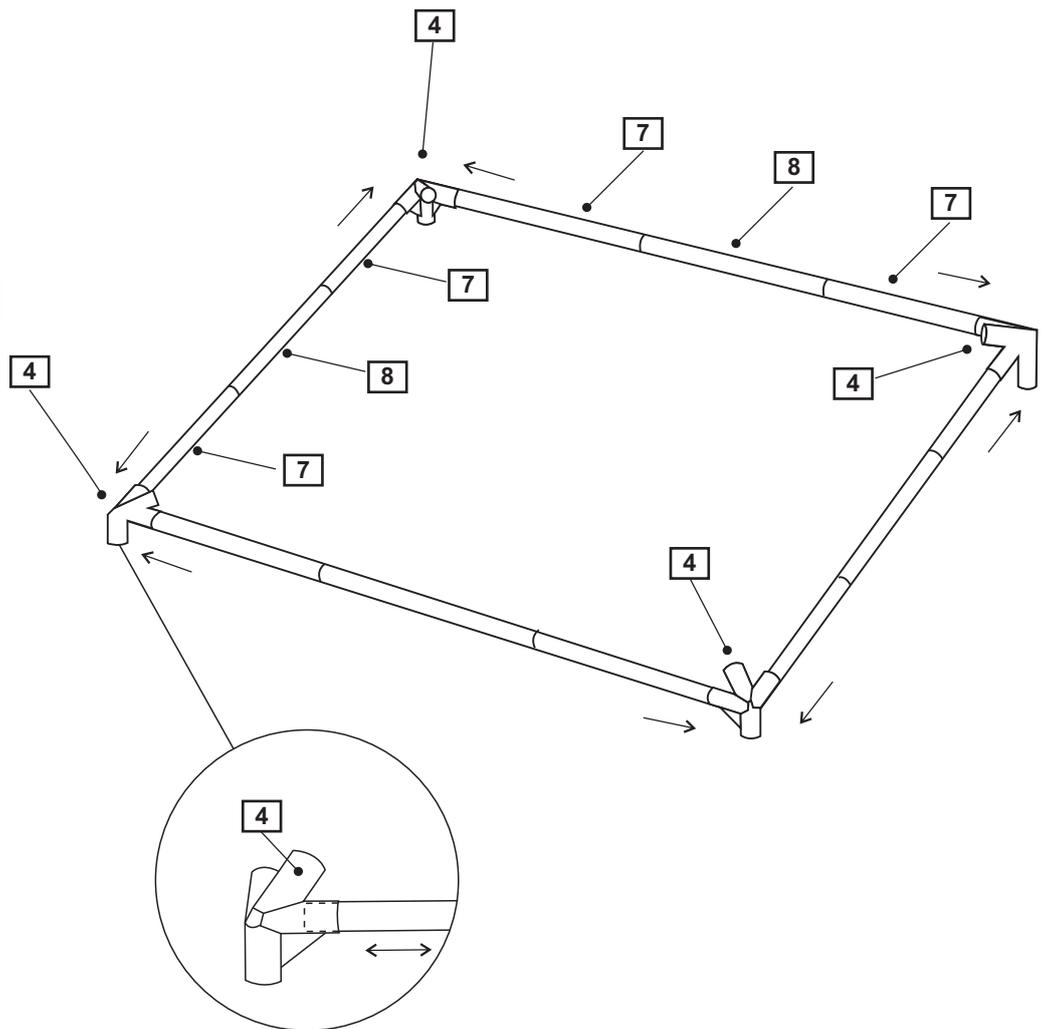

Step 2

Assembling corner joints

Use corner joints **4** to connect the support poles. Ensure all the poles are fully inserted and secure.

Note: It would be useful to ask someone to help you at this step.
