Logitech®

Gaming Keyboard G105

Your essential tool for serious gaming

• Backlighting
• 6 programmable G-keys*
• Multi-key input
• Media keys
• Game/desktop mode switch

The Logitech® Gaming Keyboard G105 is your essential tool for serious gaming. Play long into the night with LED backlighting. Six programmable G-keys, each with three mode states, provide up to 18 possible macro combinations per game.* You can perform either single keystrokes or intricate macros with multiple keystrokes, mouse events, user-defined delays and repeating. You can even record new macros on the fly. And enhanced key rollover and anti-ghosting capabilities mean you can perform multiple—and more complex—actions without the interference or ghosting that can occur on other keyboards. Convenient one-touch media key controls put more control at your fingertips. And a game/desktop mode switch disables the Windows and Context Menu keys, so your game won't be interrupted if you accidentally press the wrong keys.

* Requires Logitech® Gaming Software, available at logitech.com/downloads.

SCIENCE WINS.
