Safety and Care Advice

Important - Please read these instructions fully before starting assembly

- Check you have all the components and tools listed on pages 2.

- Remove all fittings from the plastic bags and separate them into their groups.

- Keep children and animals away from the work area, small parts could choke if swallowed.

- Make sure you have enough space to layout the parts before starting.

- Do not stand or put weight on the product during assembly, this could cause damage.

- Assemble the item as close to its final position (in the same room) as possible.

- Assemble on a soft level surface to avoid damaging the chair or your floor

- Parts of the assembly will be easier with 2 people.

- We do not recommend the use of power drill/drivers for inserting screws, as this could damage the unit. Only use hand screwdrivers.

- Dispose of all packaging carefully and responsibly.

- Maximum safe seated weight: 110kgs.

Care and maintenance

- Only clean using a damp cloth and mild detergent, do not use bleach or abrasive cleaners.

- Make sure each studs matches the corresponding figure to ensure correct assembly.

- From time to time check that there are no loose nuts on this chair.

- Assemble all parts and nuts loosely during assembly, only once the product is complete should you fully tighten the nuts.

- This product should not be discarded with household waste. Take to your local authority waste disposal centre.
