- Guaranteed smooth wireless dimming
- Control your lights, your way
- Get ready for the day
- Enjoy a perfect read
- Unwind with warm white light
- Stay focused

PHILIPS

Highlights

Create your ambience

Set the right ambience for any moment with a range of beautiful, natural white light. Use the app to set any shade of white light, from cool energising daylight to relaxing warm white light. Take control and set the ambience. Not too bright. Not too dark. Just right.

Light for your well-being

Light influences our mood, behaviour, alertness and routines. Through the app, you can set the light that is optimal for your moment. Philips Hue helps you to energise, concentrate, read and relax. Customise your daily routines into moments you can enjoy. Feel different. Feel better.

Wake up naturally

Ease your sleeping routine and wake up gently for a fresh start each day. Philips Hue will help get you out of bed in a nice way. The gradually increasing light intensity gives you the feeling that you are waking up naturally with sunlight — rather than the rude awakening of an alarm ringing.

Away-from-home control

You can control your lights remotely wherever you are. Check if you have forgotten to switch your lights off before you left your home, and switch them on if you are working late. With geofencing technology, your lights can even welcome you home or switch off automatically when you leave your home. It's all about

simplifying your life and giving you peace of mind in smart and useful ways.

Comfort dimming

Experience guaranteed smooth dimming with Philips Hue. Not too bright. Not too dark. Just right. No need for wires, an electrician or installation.

Set light schedules

Philips Hue can make it seem like you're at home when you're not, using the schedule function in the Philips Hue app. Set the lights to come on at a pre-set time, so the lights are on when you arrive home. You can even set rooms to light up at different times. And of course, you can let the lights turn off gradually in the night, so you never have to worry whether you've left any lights on.

Specifications
