

# Phoenix 4 Cube Unit

Assembly Instructions - Please keep for future reference

719/3020

719/1132

## Dimensions

Width - 35cm

Depth - 35cm

Height - 140cm

**Important - Please read these instructions fully before starting assembly**

If you need help or have damaged or missing parts, call the **Customer Helpline: 08456 400800**

## Safety and Care Advice

**Important** - Please read these instructions fully before starting assembly

- Check you have all the components and tools listed on pages 2 and 3.
- Remove all fittings from the plastic bags and separate them into their groups.
- Keep children and animals away from the work area, small parts could choke if swallowed.
- Make sure you have enough space to layout the parts before starting.

- Do not stand on the panels, this could cause damage.
- Assemble the unit as close to its final position (in the same room) as possible.
- Assemble on a soft level surface to avoid damaging the unit or your floor.
- Parts of the assembly will be easier with 2 people.

- We do not recommend the use of power drill/ drivers **for inserting screws**, as this could damage the unit. Only use hand screwdrivers.
- Dispose of all packaging carefully and responsibly.
- **Warning:** The unit weighs approximately 17kgs. **Please lift with care.**

### Care and maintenance

- Only clean using a damp cloth and mild detergent, do not use bleach or abrasive cleaners.
- Assembly to be carried out by the competent adult only.
- From time to time check that there are no loose screws on this unit.
- During assembly children should be kept away from the product due to the potential risk of injury.
- This product should not be discarded with household waste. Take to your local authority waste disposal centre.
- Do not use this item if any components are missing or damaged.

## • “IMPORTANT: RETAIN THESE INSTRUCTIONS FOR FUTURE REFERENCE”.

- Argos Ltd. MK9 2NW.
- The maximum weight of the children user: 50kgs.
- Regularly check all fastenings to ensure that they are properly tightened.
- This product is suitable for children in the age of 6 or above.

# A Guide to - Wall Mounting & Fixings

## Important note:

If plastic wall plugs are supplied with your product:

- these are only suitable for use in masonry walls.

If you are in any doubt about the correct wall plugs for your wall, seek professional advice.

Failure of the product due to using incorrect fixings is the responsibility of the installer.

**Important:** When drilling into walls always check that there are no hidden wires or pipes etc.

Make sure that the screws and wall plugs being used are suitable for supporting your unit. Consult a qualified tradesperson if you are unsure.

## Hints:

- 1: **General rule:** ⚠ Always use a larger screw and wall plug if you are not sure.
- 2: Ensure you use the recommended drill bit to match the wall plug and hole size.
- 3: Ensure you drill the hole horizontally, do not force the drill or enlarge the hole.
- 4: Take extra care when drilling high walls, ceilings and ceramic tiles. Ensure wall plugs are inserted beyond the thickness of the ceramic tiles to avoid the tiles splitting or cracking.
- 5: Ensure wall plugs are well fitted and are a tight fit in the drilled hole.

## Types of walls

You can use one of the following types of wall plug if your walls are made of brick, breeze block, concrete, stone or wood.

### No.1 "General Purpose" wall plug

Generally aerated blocks should not be used to support heavy loads, use a specialist fitting in this case. For light loads, general purpose wall plugs can be used.

### No.2 "Plasterboard" wall plug

For use when attaching light loads on to plasterboard partitions.

### No.3 "Cavity Fixing" wall plug

For use with plasterboard partitions or hollow wooden doors.

### No.4 "Cavity Fixing-Heavy Duty" wall plug

For use when fitting or supporting heavy loads such as shelving, wall cabinets and coat racks.

### No.5 "Hammer Fixing" wall plug

For use with walls stuck with plasterboard. The hammer fixing allows it to be fixed to the wall rather than the plasterboard. Always check the fixing is secure to the retaining wall.

### No.6 "Shield Anchor" wall plug Heavy loads

For use with heavier loads such as TV & HiFi speakers and satellite dishes etc.

## Care & Maintenance

**Safety:** Always check the fitting and location to ensure your safety in and around the home.

**Fitting:** From time to time check the fitting to ensure the wall plugs or screws do not become loose.
