Safety information

1

⚠️ Safety information

Important - Please read these instructions fully before installing or operating

Power source

- This symbol means that this unit is double insulated. An earth connection is not required.

- The appliance must be connected to a 220-240 volt 50/60Hz AC supply by means of a three pin socket.

- Unplug this apparatus during lightning storms or when unused for long periods of time - to prevent damage to this product.

- Opening or removing covers may expose you to dangerous voltages or other hazards.

- To prevent risk of fire or electric shock, avoid overloading wall outlets, extension cords, or integral convenience receptacles.

- Use suitable power sources - Plug the product into a suitable power source, as described in the operating instructions or as marked on the product.

- The supply voltage should be the same as that indicated in the technical specifications and the appliance rating plate.

- If the socket outlets in your home are not suitable for the plug supplied with this unit check with a qualified electrician for replacement.

- In order to disconnect the apparatus from the mains completely, switch off the outlet and remove the mains plug completely.

- Do not bend, stretch or pull the supply cable in order to avoid electric shock.

- When installed, the power socket must be within easy reach.

Moisture and water

- Do not use this apparatus near water or moisture.

- Do not use this product near a bathtub, washbowl, kitchen sink, and laundry tub, in a wet basement, near a swimming pool, or anywhere else that water or moisture is present.

If you require any technical guidance or find that your product is not operating as intended, a simple solution can often be found in the **Troubleshooting**

⚠ Safety information

Important - Please read these instructions fully before installing or operating

Heat sources and flames

⚠
- Batteries shall not be exposed to excessive heat such as sun, fire or the like
- To prevent risk of fire or electric shock, avoid overloading wall outlets, extension cords, or integral convenience receptacles.

Servicing and repairs

- Refer all servicing to qualified service personnel
- Servicing is required when the apparatus has been damaged in any way: such as liquid has been spilled or objects have fallen into the apparatus; the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped

section of these instructions, or online at **www.argos-support.co.uk** If you still require further assistance, call one of our experts on **0345 600 3021**.

Preparing the remote control

1. Before use remove the plastic tab insterted into the battery compartment on the rear of the remote control. **(Fig 1)**. Once remove the remote will be functional.

Fig 1.
Installing batteries in the remote control

As the battery becomes exhausted the operating distance will shorten. When the remote no longer operates the unit, replace the battery with a new CR2025 lithium battery.

- Dispose of used batteries with regard to the recycling regulations in your area.

- Do NOT short circuit batteries or throw them into water, the general rubbish or in a fire. Weak batteries can leak and damage the remote control. Replace them in good time!

- Keep coin-sized button batteries out of sight and out of the reach of children. Coin lithium batteries can cause serious injury when swallowed.
Dispose of used batteries with regards to the recycling regulations in your area. Do NOT short circuit batteries or throw them into water, the general rubbish or in a fire. Weak batteries can leak and damage the remote control. Replace them in good time.

Remote control range

1. When using the remote control always point the top end towards the IR sensor on the front of the party speaker.

2. Ensure you are within approx 8M range and there are no objects covering the IR sensor on the front of the party speaker.

3. If the remote usage becomes intermittant or the operating distance is shortened, replace the CR2025 battery as outlined above.

Getting to know your Party Speaker

You'll be up and running in no time

Line/AUX-in input connection

Follow the steps below to connect an external audio source (such as a smartphone) for playback through the party speaker..

You will need a 3.5mm audio cable or a 3.5mm to RCA cable (not supplied) to connect a device to the LINE IN **(22)** or AUX **(23)** input socket.

1. Connect one end of the 3.5mm audio cable to the LINE IN input socket **(22)** or RCA sockets **(23)** on top of the unit. **(Fig 3)** Connect the other end to an earphone or line-out socket on the audio device (such as a smartphone).

2. Switch to LINE IN input (LINE IN socket 22) or AUX input (AUX IN sockets (23) mode by pressing the MODE button on the main unit or remote repeatedly until you see LINE or AU IN on the display.

3. Press PLAY on the audio device.

4. Adjust the volume to your desired level.
Fig 3.

When connecting via the headphone output the volume of the mini system is affected by the volume control on the player. Ensure that the audio source (such as an MP3 player) is set to about 70-80% to avoid distortion.

When connecting to the AUX input sockets, take care to match the red socket to the red plug and the which socket to the white plug.

If you require any technical guidance or find that your product is not operating as intended, a simple solution can often be found in the **Troubleshooting**

16   BUSH   Getting to know your Party Speaker

Getting to know your Party Speaker

You'll be up and running in no time

Mic connection

Follow the steps below to connect a microphone with a 1/4" jack plug.

1. Connect the 1/4" (6.3mm) plug to the MIC input **(26)** on top of the unit.
2. Once connected the volume is adjusted with the MIC volume control knob **(16)**.
3. The mic input also as an ECHO control. Rotate the ECHO control knob **(15)** to adjust the amount of echo on the mic output.

Guitar connection

Follow the steps below to connect a guitar using a 1/4" (6.3mm) jack cable (not supplied).

1. Connect one end of the 1/4" (6.3mm) jack cable to the guitar output and the other end to the GUITAR input **(25)** on top of the unit.
2. Once connected the volume is adjusted with the GUITAR volume control knob **(17)**.

Standby mode

This unit is designed to enter STANDBY mode automatically after 20 MINUTES (approximately) of inactivity. Press the STANDBY button on the unit or remote to wake the unit.

1. Press the STANDBY button on the unit or remote to put the system into standby.
2. To resume normal operation press either button again.

Switching input modes

Follow the below instructions to switch between Bluetooth, FM radio, AUX in and LINE in input modes.

1. Press the MODE button on the main unit **(12)** or remote repeatedly to cycle between Bluetooth, FM radio, AUX in and LINE in input modes.
2. Alternatively press the BT button on the remote for direct access to Bluetooth. And the U/SD button to switch between USB and SD card inputs.

section of these instructions, or online at **www.argos-support.co.uk** If you still require further assistance, call one of our experts on **0345 600 3021**.

Getting to know your Party Speaker

You'll be up and running in no time

Volume function

1. Rotate the VOLUME control dial **(18)** clockwise or press the 🔊 button on the remote control to increase the volume output.

2. Rotate the VOLUME control **(18)** anti-clockwise or press the 🔉 button on the remote control to decrease the volume output.

Mute function

Activating the mute function disables audio output from the speakers. Bluetooth, Radio etc will remain playing while mute is activated.

1. Press the MUTE button on the remote control to silence audio playback.

2. Press again to resume audio output once more.

Bass / Treble adjustments

Using the bass and treble control knobs you can adjust the sound output.

- Rotate each knob to increase or decrease the treble **(19)** / bass **(20)** level for the audio output.

Light effect

1. Press the LIGHT effect button **(24)** to begin the light show.

2. Press the LIGHT button to change the lighting effect. Up to 8 preset styles.

3. The 9th press of the LIGHT button will turn off the light effect.

If you require any technical guidance or find that your product is not operating as intended, a simple solution can often be found in the **Troubleshooting**

Using your Party Speaker

3
Using your Party Speaker

Let's get started

FM radio operation

1. Press the MODE button on the main unit or remote until you reach the FM radio mode. The display will show 'Fn' momentarily then change to an FM frequency.

2. Press the ▶❚❚ button on the main unit or remote control to begin an auto scan of the Fm band. Every station that is detected is saved to a preset location.

3. Use the NEXT ▶▶❙ / PREV ❙◀◀ buttons to cycle between the saved station presets.

The position of the party speaker is important for a good FM reception. If you cannt receive a station you know you should be able to; move the party speaker to a different location and try the scan again.

Playing MP3's from a USB flash drive or SD card

Follow the steps below to connect a USB flash drive or SD card and play mp3 files.

Fig 4.

1. Insert a compatible USB flash drive or SD card into the USB input socket **(8)** or SD card input slot **(29)** on top of the unit. **(Fig 4)**

2. The device will be automatically detected and the first track in folder 01 or the root of the USB/SD card will begin playback automatically.

3. To pause playback press the ▶❚❚ button on the main unit **(11)** or remote control during playback. To resume playback press once more.

4. To skip to the next or previous track use the NEXT ▶▶❙ / PREV ❙◀◀ buttons.
USB/ MP3 information

• Do not remove the USB/SD card device during playback.

• Max 999 tracks and 99 folders can be recognised

• FAT 16, 32 formats only. Up to 64GB in size.

If you require any technical guidance or find that your product is not operating as intended, a simple solution can often be found in the **Troubleshooting**

Using your Party Speaker

Let's get started

Connecting a Bluetooth device

When using the Bluetooth connection, you can listen to audio wirelessly from a Bluetooth audio device (For example an MP3 player) within 10 metres of the Party Speaker unit.

1. When in Bluetooth mode you will see 'bt' appear on the display and the unit searches for previously paired devices or becomes available for new connections (indicated by the BT LED flashing)..

2. Enable Bluetooth on your audio device (For example a smartphone) and search for available bluetooth connections. Select the 'BUSH PARTY SPEAKER' from the list. If you are asked for a pass code enter '0000'. The BT LED will stop flashing once connected.

If you turn off either device before pairing is complete the process will need to be repeated when powered ON again.

3. Once paired an audible sound is heard through the speakers.

Each time you switch the Party Speaker on and select BLUETOOTH mode the device will automatically connect, unless you have un-paired the device on your bluetooth audio device.

4. You can now begin playback from the audio device and the output will playback through the Party Speaker.

5. When using a mobile phone as an audio source and you receive a phone call the audio playback stops while you receive the call. When you hang up the audio is restored.

The volume output is effected by the volume level on the audio source EG: Phone or laptop, so make sure that is set to about 70-80% (not too loud to avoid distortion).

6. To un-pair (disconnect) a bluetooth device, press the UNPAIR button on the remote control. The party speaker will now revert to search mode, and be available for new connections.

section of these instructions, or online at **www.argos-support.co.uk** If you still require further assistance, call one of our experts on **0345 600 3021**.

Using your Party Speaker

Let's get started

Controlling a connected device

Once connected you can either use the controls on the audio device to begin playback, skip tracks etc. Or you can use the control buttons on the unit/remote control.

1. The ▶II button on the main unit **(11)** or remote control when pressed will begin playback of the selected track on the audio device. Press again to pause playback.

2. To skip to the next track press the NEXT/ ▶▶I button on the main unit or remote control.

3. To skip to the previous track press the PREV/ I◀◀ button on the main unit or remote control.

All other general audio functions such as MUTE, BASS, TREBLE & VOLUME work as described in this manual.

If you require any technical guidance or find that your product is not operating as intended, a simple solution can often be found in the **Troubleshooting**
