MECHANICAL GAMING KEYBOARD

V500

The V500 is the mechanical gaming keyboard for exacting purists: No numpad, no hotkeys, no fuss. With its onboard memory, 90 fully customizable keys, and ultra-durable blue switches which can easily handle 60 million keystrokes, this keyboard offers endless gaming fun. What's more, this key-

board takes up hardly any space on your desktop thanks to its ultra-compact design – making it perfect for LAN parties and laptop gaming too.

► MECHANICAL SWITCHES

Think fast, act fast: The mechanical switches on your V500 have a 50 g operating force and 2 mm of key travel distance – plus they offer all this with an incredible life span of up to 60 million key strokes. Put more clearly: Own it and enjoy even faster, more precise, and longer-lasting fun.

► FULLY CUSTOMIZABLE KEYS

Customize it to suit: Almost every key on your V500 Keyboard is individually programmable, including with your own self-recorded and precisely timed macros – for a truly customized tool that obeys your every key press.

► ONBOARD MEMORY

Ready to rumble: The onboard memory stores 7 customizable game profiles which are always on standby ready to use, giving you the perfect configuration regardless of the computer you're using your V500 with.
