Assembling the Table Lamp

Selecting the correct lightbulb And attaching the shade.

Maximum wattage - 28 Watts.
Lightbulb shape - capsule.
Lightbulb cap shape – G9.

Do not exceed the maximum wattage or use a different shape of lightbulb. This may cause your light fitting to overheat.

When fitting halogen capsules, take care not to touch the capsule directly with fingers as this will leave a residue of grease on the glass surface. This will reduce the life of the capsule and it may cause the bulb to blow and fail.
