

HOW TO USE

Use every time you are preparing the soil for planting. Sprinkle evenly over the soil and mix in well. Water well after planting out, especially in dry weather.

During the growing season sprinkle evenly over the soil around established plants. Gently work it into the soil surface with a hand fork without disturbing the roots and water in thoroughly.

For established plants, in borders & containers apply at the start of the season and reapply 1-2 times to stimulate flowering, fruit formation or fruit ripening when plants are actively growing. Sprinkle around plants, fork in and water in well.

WHERE TO USE

THIS SLOW RELEASE, LONG LASTING PLANT FOOD, CONTAINING NUTRITIOUS BONE MEAL, IS IDEAL FOR VEGETABLES, FRUIT, FLOWERS, ROSES, SHRUBS AND TREES.

Phosphate promotes vigorous plant growth and helps new plants establish quickly.

Nitrogen encourages strong growth and healthy lush green foliage.

Organic matter naturally encourages micro-organisms to improve the soil fertility and structure.

WHEN TO USE

Levington Bone Meal can be applied prior to sowing or planting and whenever needed throughout the growing season.

USEFUL TIP

Remember plants also require other nutrients like potassium. Use this product in combination with manure or a complete fertiliser like Levington Growmore.

PELLET PERFECTION

Low dust and easy to use pellets which deliver the perfect balance of NPK.

APPLICATION RATE

ALL USES

Planting shrubs and trees
25-75g per plant
During the growing season
75-100g per m²

VEGETABLE GARDEN

Beetroot, potatoes and carrots
75g per m²
Leguminous plants such as peas and beans
75-125g per m² or
75g for every metre in height of plant, tree or bush

COVERAGE: 72M² - 360M²

SAFETY AND ADVICE

- Only use where there is a recognised need to feed plants.
- Keep away from plant leaves and stems.
- Do not exceed the appropriate application rate. Increasing the dosage may result in damage to your plants.
- Store in the original container in a cool, dry, frost-free place away from children, pets and foodstuffs.
- Always wear gloves when gardening
- Wash hands and exposed skin after use.
- Do not eat or smoke while applying the product.

ALWAYS USE GLOVES
