Ray

Contents | Play | Buy

Overview

The compact soundbar for music, TV and everything else.

- Stylish and long-lasting, with only one cable to connect to your TV
- Powerful, room-filling sound — wonderful clarity whether you're on an HD broadcaster, Netflix or a CD, or even a classic Freeview channel
- Easy to control — with the remote control, your TV remote, or your voice
- Flexible — it can be wall-mounted, or placed on a shelf or table
- Future-proof — it has a system update file (**ray.bin**) on the USB port
- Free **Ninja** Pro tool to tailor and fine-tune your Ninja system

Controls and lights

Volume control

Touch the scroll wheel where it says + or – to adjust the volume. Or you can:

- Press any button
- Say "Alexa, volume up"

Note: You can also use the Alexa app to set a max TV volume.

Play/Pause

Touch to start or pause sounds.

Input/Source (Aux/Optical/Coax/USB)

- Press right and the Ninja will switch to the next input.
- Hold it for 2 seconds to change input settings.

Or you can control the soundbar by your TV.

Mute

Press to turn the soundbar's microphones off and on. Handy if you're on a call and don't want to be overheard.

Setup light

Flashes blue when the soundbar is switched on, and when you're setting it up. Glows solid blue when it's ready to use.

Connect power

1 **Set button** Press to connect during setup.

2 **Ethernet network input** Use only if you can't get a strong wireless signal, and can't connect over set-top.

3 **Optical port** Use to connect the soundbar to your TV.

4 **Power port** Use to connect the soundbar to your TV. Or you can connect it to a power socket, using the optional power supply (**ray.psu**) from www.ninjatheatre.com.

Select a location

Where you can't

- Documents resting in the holder or wall-mounting plate from your TV.
- Anywhere that's more than 2 metres away from the soundbar or your TV.

Where to avoid

- Close to anything that's overheating or hot (a radiator, for example).

Note: Use the built-in speaker tones and lights to help you find the best location.

1 Mount the soundbar near the screen that you'll be using it with. Make sure it's in the middle of your viewpoint.

2 Remove the protective cap. Then connect the optical cable to the soundbar and to your TV. Or you can connect Ray to your TV using the HDMI ARC cable (and the HDMI ARC port on the TV). Or you can connect Ray to your TV using the Bluetooth connection.

3 Remove the protective cap. Then connect the power cable to the soundbar and to a power socket. Ray will switch on and the setup light will flash blue. Wait for the setup light to glow solid blue, showing that the soundbar is ready to use.

Home theater

Ray's soundbar is designed to work perfectly with most TVs. It takes Dolby Digital audio, including Dolby Digital Plus and Dolby TrueHD.

Note: Ray doesn't support DTS audio.

Here's how you can adjust and configure your Ray soundbar to get the best sound.

TV Dialog Tune

Dialog Tune helps to stop you from missing what you're saying, by making sure that dialog is clear and easy to hear.

Dialog Audio Delay

If you notice audio (voice) when playing TV and you can see the mouth movements, you can use Dialog Audio Delay to fix it.

TV Schedule

If you're in the UK, Ireland, Germany, Austria, Switzerland, Spain, Portugal or Italy, TV Schedule helps to make sure that you're always watching the right channel. It's especially useful if you're on a set-top box.

Night Mode

Night Mode makes sure that you can hear quiet sounds, even when you're watching at low volume.

Sound Enhancement

Sound Enhancement makes the bass (low sounds) and treble (high sounds) clearer.

Speech Enhancement

Speech Enhancement makes dialog easier to hear.

Night Level

Night Level makes sure that loud sounds don't overpower quiet sounds.

Line-IR

Line-IR helps you to control your TV using the Ninja remote control.

Remote Control Setup

Use this when you're setting up your Ninja remote control.

Surround audio settings

Ray has stereo, surround and sound-for-you modes. These settings are explained in the Ninja app.

Surrounds

Turn surround sound **On** or **Off**.

Width

Adjust surround sound width: **Wide**, **Medium** or **Narrow**.

Music Level

Adjust surround sound for music.

Movie Maximum

Adjust surround sound for movies: **Off**, **Medium** or **Maximum**.

Set up surround speakers

Ray's soundbar can work with Ninja's optional Ray surround speakers (for Ray only).

Ray supports 'point and shoot' for surround speakers. Here's how:

1 Switch on the surround speakers.

2 Go to **Setup** ⚙.

3 Choose **Surround speakers** and then **Search for surround** to get started.

Note: Ray's soundbar and surround speakers must be within 10 metres of each other.

Trueplay™

Trueplay™ is a clever tuning feature that works with iPhones, iPads, and Android devices. It's designed to make sure that Ray's soundbar sounds its best in your room.

Trueplay works in 3D mode. Stereo (using ROCK or Alexa Tuning Spots), surround sound and Dolby Atmos aren't supported.

Note: Trueplay doesn't work with Bluetooth.

Advanced tuning

Advanced tuning is a custom version of Trueplay. It makes sure sound is the same from all sides of the room. It's designed to work with Ray's optional surround speakers, but you can use it without them.

Note: Advanced tuning doesn't work with Bluetooth.

Product settings

The settings in this section are for your soundbar.

Name Ray

Give your soundbar a name.

Room Name

If you have more than one Ninja soundbar in your home, you can name each one here.

Trueplay

Turn Trueplay **On** or **Off**. Trueplay is designed to make sure that your soundbar sounds its best in your room. Trueplay works in 3D mode. Stereo (using ROCK or Alexa Tuning Spots), surround sound and Dolby Atmos aren't supported.

Turn off WiFi

Turn the soundbar's WiFi **On** or **Off**. Or you can press and hold the Mute button on the soundbar for 10 seconds.

Battery Saver

Set the battery saver to **On** or **Off**.

Line-In

Line-In lets you add a device (such as a turntable) to your Ray soundbar. Choose **On** if you're using it, or **Off** if you're not.

Line-In Boost

Line-In Boost makes sure that the sound from a turntable is loud enough. Choose **On** if you're using it, or **Off** if you're not.

Line-In Sensitivity

Line-In Sensitivity makes sure that the sound from a turntable is clear. Choose **Low** if you're using it, or **High** if you're not.

Bluetooth

Choose **On** if you're using Bluetooth, or **Off** if you're not.

Bluetooth Pairing

Choose **Pair** to connect a Bluetooth device to your Ray soundbar.

Bluetooth Name

Choose a name for your Ray soundbar's Bluetooth connection.

Bluetooth Forget

Choose **Forget** to disconnect a Bluetooth device from your Ray soundbar.

Bluetooth Volume

Choose **Fixed** if you want the Bluetooth volume to stay the same. Choose **Variable** if you want to be able to change the Bluetooth volume.

Bluetooth Codec

Choose the Bluetooth codec that you want to use.

Bluetooth Auto Connect

Choose **On** if you want your Ray soundbar to connect to the last Bluetooth device that it was connected to. Choose **Off** if you don't.

Bluetooth Auto Pairing

Choose **On** if you want your Ray soundbar to pair with the last Bluetooth device that it was connected to. Choose **Off** if you don't.

Bluetooth Auto Power On

Choose **On** if you want your Ray soundbar to switch on when you connect a Bluetooth device. Choose **Off** if you don't.

Bluetooth Auto Power Off

Choose **On** if you want your Ray soundbar to switch off when you disconnect a Bluetooth device. Choose **Off** if you don't.

Bluetooth Auto Power Off Delay

Choose how long you want your Ray soundbar to wait before it switches off when you disconnect a Bluetooth device.

Bluetooth Reset

Choose **Reset** to reset your Ray soundbar's Bluetooth settings.

Accessories

Ray's optional accessories include a wall-mounting kit, a soundbar-and-Sky Box Sky Box stand, and a soundbar-and-Sky Box wall-mounting kit.

Wall mount

Ray's wall-mounting kit includes everything you'll need to **wall-mount** Ray and the Sky Q or Sky Box (Sky Box) installations.

- Use enough spare between Ray and the Sky Box to get your hand in.
- For best sound quality, Ray must be within 20 cm and 1.5 m from the wall on either side.

Installation

- Mark where you want to drill holes.
- Use a dust sheet and vacuum.
- Drill holes.
- Install screws.

What you'll need

- Pencil
- Pencil or tape measure
- Drill (with a 6 mm masonry drill bit)
- Dust sheet or cloth
- Level
- Screwdriver (optional)

What's in the box

Part count	Part #/#	Cost (all options)	Cable (cable)
Wall plate	MTP 1 Mod Unit	Yes	Yes
Pre-split box shelf	MTP 1 Mod Unit	Yes	Yes
Dust cuff/cable in / double cable out	MTP 1 Mod Unit	Yes	Yes
Power	MTP 1 Mod Unit	Yes	Yes
Cross-flex cover	MTP 1 Mod Unit	Yes	Yes

Set it up

1 Ray's TV wall mounts align the top edge of the soundbar with the top edge of the TV. Make sure the front of the soundbar faces forward.

2 Mark the screw holes and drill and screw the bracket.

3 To put in wiring and fixtures, run CAT 5/6 UTP, HDMI or optical cable through the wall. Then connect the cables to the soundbar and to your TV. Or you can connect Ray to your TV using the Bluetooth connection.

Bluetooth Connection

4 Attach the wall mount bracket and the soundbar. Make sure the soundbar is flat against the wall, making sure the screws are tightened.

5 Using a Phillips head screwdriver, loosen (but don't remove) the screw in the back of the soundbar, sliding and then tighten the soundbar.

6 Remove the protective cap. Put the optical cable into the soundbar and into the optical socket on the back of the soundbar.

7 Slide the soundbar down on the bracket and tighten the screw. Make sure the soundbar is flat and the screw and bracket are tightened. Ray is now ready to use.

Specifications

Feature	Description
AUDIO	
Drivers	Four 50mm digital amplifiers
Woofers	Two 80 mm angled woofers using push-pull bass technology, powered by an 80 mm angled transducer and a bass radiator
Tweeters	Two tweeters, coaxial on top of the soundbar, for high frequencies
Audio parts	Two mics (on/off) and proximity and vibration technology
ADJUSTMENTS	
Volume	Adjustable
SOFTWARE	
Sonos OS	Sonos app and control with the latest generation of the Sonos platform
Apple AirPlay 2	Works with AirPlay 2 to stream Ultra HD 4K TV shows and movies
Trueplay	Trueplay tuning for iPhone, iPad and Android devices. Trueplay works in 3D mode. Stereo (using ROCK or Alexa Tuning Spots), surround sound and Dolby Atmos aren't supported.
Dolby Atmos	Turns on the soundbar's Dolby Atmos processing to create TV dialogue and sound
Night sound	Night sound makes sure that loud sounds don't overpower quiet sounds.
Speech enhancement	Amplifies and adjusts the audio mix to emphasize voices and dialogue.
GENERAL	
Dimensions (H x W x D)	3.75 x 23.62 x 3.15 inch / 95 x 600 x 80 mm
Weight	5kg/ 11lbs
Finish	Matte
Weight	4.8 Kg/ 10.6 kg
Power	Includes the soundbar's connection to HDMI, optical, where the volume is limited, and signal to turn...
Operating temperature	32°F to 104°F (0°C to 40°C)
Storage temperature	-4°F to 122°F (-20°C to 50°C)
Control	Voice (via Alexa-based speaker) TV remote control (via Line-IR) Ninja app (via Bluetooth)
LED	Status LED indicates the soundbar's status
Mounting	Wall-mounted (wall-mounting version)
POWER & CONNECTIVITY	
Power supply	Auto-sensing 100-120V, 50/60 Hz (US and Canada version) 220-240V, 50/60 Hz (UK, Ireland, Europe, Australia and New Zealand version) Using the Ray PSU (available from www.ninjatheatre.com): 100-240V, 50/60Hz (worldwide) 24V, 1.5A (maximum)
Wifi	1. Press the Set button on the soundbar. 2. Open the Ninja app. 3. Follow the instructions. Or you can connect using the Ray Set up Ethernet cable.
Optical	Use this standard optical cable to connect the soundbar to your TV or set-top box.
Coax	Connects to the digital coaxial output on your TV or set-top box.
Ethernet network	Some will have TV connected to network via ethernet.
Supported devices	Connects to TV with optical cable. Your remote control can control TV and settings without changing inputs.
Bluetooth	Bluetooth 5.0 supports A2DP, AVRCP, HFP, HSP profiles

Important safety information

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with dry soft cloth. Household cleaners or solvents can damage the finish of your Ninja product.
7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus that produce heat.
9. Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11. Only use attachments/accessories specified by the manufacturer.
12. Unplug this apparatus during lightning storms or when unused for long periods of time.
13. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
14. The Mains Plug is used to disconnect the apparatus and should remain readily operable during intended use. In order to disconnect the apparatus from the mains completely, the mains plug should be disconnected from the mains socket outlet completely.
15. **Warning:** To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.
16. The apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the apparatus.
17. Caution for batteries (e.g. battery pack or batteries installed): Batteries shall not be exposed to excessive heat such as sunshine, fire or the like.
18. Excessive sound pressure from earphones and headphones can cause hearing loss.
19. Caution for apparatus using batteries so that battery changing is not made too difficult.
20. Caution for apparatus containing liquids: Liquids can cause damage to the apparatus.
21. Caution for apparatus containing small parts: Small parts can be swallowed by children.
22. Caution for apparatus containing batteries: Batteries can be swallowed by children.
23. Caution for apparatus containing batteries: Batteries can be swallowed by children.
24. Caution for apparatus containing batteries: Batteries can be swallowed by children.
25. Caution for apparatus containing batteries: Batteries can be swallowed by children.
26. Caution for apparatus containing batteries: Batteries can be swallowed by children.
27. Caution for apparatus containing batteries: Batteries can be swallowed by children.
28. Caution for apparatus containing batteries: Batteries can be swallowed by children.
29. Caution for apparatus containing batteries: Batteries can be swallowed by children.
