### Mattress

This hypo-allergenic cool flow mattress core material uses a high density polyester insert, for a comfortable night's sleep. The water resistant cover is made from polypropylene, which is breathable and hypo-allergenic - to offer protection against dust mites, which can aid the cause of eczema and asthma. The insert has amazing heat dissipation from the body to minimise sweating and to create a comfortable sleep for your baby. The zipped cover can be removed and machine washed to keep that long lasting freshness.

Size: 140cm x 70 x 10cm

#### CARE INSTRUCTIONS:

Turn mattress & air regularly. Cover may be sponged clean with warm water. Machine wash only if necessary. Stretch into shape whilst damp. Do not immerse cot mattress or fillings in water. Ensure mattress is completely dry before use.
