12. Wireless Transmitter
13. Transmitter Connection LED and Pairing Button
14. 10'/3m USB-A to USB-C Cable
15. Thumbstick Grip Caps
16. Carry Case

SETUP FOR XBOX

1. Plug the USB-C end of the cable into the Charge Dock.
2. Plug the USB-A end of that cable into the Xbox console.
3. Press the Power button on the Xbox console; the Xbox's LED will illuminate white.
4. Make sure the transmitter is plugged securely into the Charge Dock.
5. Press the controller's Guide button (Xbox logo button) for two seconds to power on the Stealth Ultra controller. Pairing will start automatically. First, the LEDs on the controller and on the transmitter will flash, indicating the controller and transmitter are searching for each other. Then the LED on the transmitter and headset will light up solid to indicate a successful pairing. (If the controller and transmitter aren't pairing, click here: [Stealth Ultra Pairing Instructions](#).)
6. If you are using a wired headset with the Stealth Ultra, plug the headset into the headset jack on the controller, and then adjust the Game Audio, Chat Audio, and Mic Input Levels within the controller's Command Display (see "COMMAND DISPLAY DASHBOARD" below).

SETUP FOR PC

1. Plug the USB-C end of the cable into the Charge Dock.
2. Plug the USB-A end of that cable into the computer.
3. Make sure the computer is powered on.
4. Make sure the transmitter is plugged securely into the Charge Dock.
5. Press the controller's Guide button (Xbox logo button) for two seconds to power on the Stealth Ultra controller. Pairing will start automatically. First, the LEDs on the controller and on the transmitter will flash, indicating the controller and transmitter are searching for each other. Then the LED on the transmitter and headset will light up solid to indicate a successful pairing. (If the controller and transmitter aren't pairing, click here: [Stealth Ultra Pairing Instructions](#).)
6. If you are using a wired headset with the Stealth Ultra, plug the headset into the headset jack on the controller, and then adjust the Game Audio, Chat Audio, and Mic Input Levels within the controller's Command Display (see "COMMAND DISPLAY DASHBOARD" below).

COMMAND DISPLAY MAIN MENU

Make in-depth adjustments via the Main Menu on your Stealth Ultra controller.

1. Press the + button on your controller to switch Focus to the Command Display, and then press the Y button to access the main menu.
 - A. Open Main Menu
 - B. Previous Menu Item
 - C. Next Menu Item
 - D. Adjust Feature
 - E. Back/Cancel
 - F. Select/Accept
2. Press the + button again to return focus to the game.

COMMAND DISPLAY DASHBOARD

Make quick adjustments via the Dashboard.

1. Press the + button on your controller to switch Focus to the Command Display.
 - A. Profile -
 - B. Profile +
 - C. Open Main Menu
 - D. EQ Cycle
 - E. Social Feed
 - F. Mic Mute
 - G. Chat Mix +
 - H. Chat Mix -
 - I. Volume +
 - J. Volume -
2. Press the + button again to return focus to the game.

CONTROL CENTER 2

Search for Stealth Ultra and Control Center 2 app on the Microsoft Store, Play Store, and App Store. Keep your controller up to date and customize performance settings on Xbox and Windows. Tune on-board memory profiles and configure social notifications on Android and iOS.

ON XBOX/PC

1. Connect the USB-C to USB-A cable to the charging dock and a computer or Xbox.
2. Power the controller on.
3. Open the Control Center 2 app.

ON MOBILE

1. Initiate App Link Pairing from the Command Display main menu.
2. Pair to your mobile smart device.
3. Launch the Control Center 2 app on that device.

CHARGING

When battery level is low, the controller LEDs will flash red.

CHARGE VIA DOCK

Place the controller in the Charge Dock, making sure the controller is properly seated in the dock itself. The controller LEDs will turn green when the controller is fully charged.

PLAY & CHARGE

Plug the controller into the Xbox console or computer with the included USB-C to USB-A cable. In this mode, the controller will function as a wired device.
