- Lock nut of blade anticlockwise, and then install the front fan cover.

- Pull the blade to rotate after installing, so as to ensure that the blade can be normally rotated.

Lock nut of guard

- Screw the lock nut of guard clockwise, and in the meantime, fix the rear guard.

INSTRUCTIONS FOR USE

Instructions for key of remote controller

	Start up/Standby key
+	"+" key
-	"-" key
	Timer key
	Swing key

It uses one button battery of type "CR2032".

Considerate Hint:

1. Install the battery with positive side facing up.
2. Effective Range of Remote Control: within 5m distance and 30-degree deflection in front of Product.

INSTRUCTIONS FOR USE

Instructions for operation of body

Wind speed key:
short press the key to adjust
the wind speed, long press
the key for 2 seconds to set
the timer.

MAINTENANCE INSTRUCTION

The fan requires little maintenance. Do not try to fix it by yourself. Refer it to qualified service personnel if service is needed.

- Before cleaning and assembling, fan must be unplugged.
- To ensure adequate air circulation to the motor, keep vents at the rear of the motor free of dust. Do not disassemble the fan to remove dust.
- Please wipe the exterior parts with a soft cloth soaking a mild detergent.
- Do not use any abrasive detergent or solvents to avoid scratching the surface.
- Do not use any of the following as a cleaner: gasoline, thinner.
- Do not allow water or any other liquid into the motor housing or interior parts.

CLEANING

- Be sure to unplug from the electrical supply source before cleaning.
- Plastic parts should be cleaned with a soft cloth moistened with mild soap. Thoroughly remove soap film with a dry cloth.

Technical Specifications

Description	Symbol	Value	Unit
Model no.	--	FS40-18BRA	--
Voltage	--	220-240	VAC
Maximum fan flow rate	F	41.3	m ³ /min
Fan power input	P	45	W
Service value	S _v	1.0	(m ³ /min)/W
Maximum air velocity	C	4.1	meters/sec
Off mode power consumption	P _{SB}	0.2	W
Fan sound power level	L _{WA}	58	dB(A)
Seasonal electricity consumption	Q	14.6	kWh/a
Measurement standard for service value	IEC 60879:1986+ (corr. 1992)		
Contact details for obtaining more information	Customer helpline 0345 640 2020		

CONNECTION TO POWER

Before Switching on make sure that the voltage of your electricity supply is the same as that indicated on the rating plate

MAIN CORD

This appliance may be fitted with a non-rewireable plug.

If it is necessary to change the fuse in a non-rewireable plug the fuse cover must be refitted. If the fuse cover is lost or damaged, the plug must not be used until a replacement is obtained.

It is important that the color of the replacement fuse cover corresponds with the colour marking on the base of the plug.

If the plug has to be changed because it is not suitable for your socket, or becomes damaged, it should be cut off and an appropriate plug fitted following the wiring instructions below.

The plug removed must be disposed of safely as insertion into a 13A socket is likely to cause an electrical hazard. For your own safety read the following instructions carefully before attempting to connect this unit to mains.

The wires in this mains lead are coloured in accordance with the following code:

BLUE = NEUTRAL

BROWN = LIVE

IMPORTANT

As the colours of the wire in the mains lead of this appliance may not correspond with the coloured markings identifying the terminals in your plug, proceed as following:-

The wire which is coloured blue must be connected to the terminal which is marked with the letter N or coloured black. The wire which is coloured brown must be connected to the terminal which is marked with the letter L or coloured red. No connection is to be made to the earth terminal of the plug.

If a 13 Amps (BS 1363) plug is used, it must be fitted with a 3 Amp Fuse conforming to BS1362 and be ASTA approved. If in doubt consult a qualified electrician who will be pleased to do this for you.

DISPOSAL: Do not dispose of electrical appliances as unsorted municipal waste, use separate collection facilities. Contact your local government for information regarding the collection systems available. If electrical appliances are disposed of in landfills or dumps, hazardous substances can leak into the groundwater and get into the food chain, damaging your health and well-being.

PRODUCT GUARANTEE

This product is guaranteed against manufacturing defects for a period of

Year

This product is guaranteed for twelve months from the date of original purchase. Any defect that arises due to faulty materials or workmanship will either be replaced, refunded or repaired free of charge where possible during this period by the dealer from whom you purchased the unit.

The guarantee is subject to the following provisions:

- The guarantee does not cover accidental damage, misuse, cabinet parts, knobs or consumable items.
- The product must be correctly installed and operated in accordance with the instructions contained in this manual.
- It must be used solely for domestic purpose.
- The guarantee will be rendered invalid if the product is re-sold or has been damaged by inexpert repair.
- Specifications are subject to change without notice.
- The manufacturer disclaims any liability for the incidental or consequential damages.
- The guarantee is in addition to, and does not diminish your statutory or legal rights.
