

Maintenance

This fitting is designed for indoor use only.
Do not use polish or abrasive cleaner - just a soft dry cloth.

BULB REPLACEMENT

- 1. Switch off the mains power supply.
- 2. Before replacing the bulb, allow it to cool down for at least 10 minutes.
- 3. Never touch the bulb with your fingers directly, cover it with a cloth.
- 4. Loosen the bulb and remove it from the lamp.
- 5. Replace the new bulbs with same voltage and wattage (Max.10W LED E14, bulbs not included)

Recycling electrical products

You should now recycle your waste electrical goods and in doing so help the environment. This symbol means an electrical product should not be disposed of with normal household waste. Please ensure it is taken to a suitable facility for disposal. Visit www.recycle-more.co.uk, click on “bank locator” and enter your postcode to find your nearest recycling site.

Care & Instruction Manual

For household and indoor use only

Please read and retain these instructions for future reference

Important

- Read these instructions carefully and familiarize yourself with the procedure before assembling the unit.
- Ensure you have enough space to lay out all the parts before assembly.
- Always be sure to use the correct type and wattage of bulbs as indicated on the fitting. Never exceed the wattage stated.
- To avoid scratching it is recommended that you assemble the unit on a soft level surface.
- When changing the bulb, always switch off at the mains and allow the old bulb to cool down before handling. Dispose of used bulbs carefully.
- This luminaire is Class II insulated.
- If the external flexible cable or cord of this luminaire is damaged, it shall be exclusively replaced by the manufacturer or his service agent or a similar qualified person in order to avoid a hazard.
- The luminaire is designed for indoor use only.
- Children should be supervised to ensure that they do not play with the unit.

Instruction for use

1. Assemble all three lower part stems below the triangular frame onto the base as step 1 on the diagram.
2. Assemble the upper part stems above the triangular frame from top to bottom as step 2 to 4 on the diagram.
3. Assemble the upper part stems into the lower part stems as step 5 on the diagram. Shorten the cable if it hinders stem screwing by pulling out the excess wires from the base as step 6 below.
4. Undo the screws under the base and remove the metal plate under the base then pull surplus cable through the base then secure the surplus cables to the cable clip under the base as step 6 on the diagram.
5. Attach the metal plate under the base and secure it with the screws and screw driver supplied as step 7 and 8 on the diagram.
6. Remove the shade holding ring from the lamp holder, then attach the shade onto it and secure in place with the holding ring as step 9 and 10 on the diagram.
7. Fit the bulb as step 11 on the diagram. Type and wattage as indicated on the fitting. The wattage indicated must not be exceeded.
