Safety and Care Advice

Important - Please read these instructions fully before starting assembly

- Check you have all the components and tools listed on the following pages.
- Remove all fittings from the plastic bags and separate them into their groups.
- Keep children and animals away from the work area, small parts could choke if swallowed.
- Make sure you have enough space to layout the parts before starting.

- During assembly do not stand or put weight on the product, this could cause damage.
- Assemble the item as close to its final position (in the same room) as possible.
- Assemble on a soft level surface to avoid damaging the unit or your floor.
- Parts of the assembly will be easier with 2 people.

- To reduce the likelihood of damaging your product please ensure that your power drill is set on a low torque setting.

Care and maintenance

- Only clean using a damp cloth and mild detergent, do not use bleach or abrasive cleaners.
- From time to time check that there are no loose screws on this unit.
- This product should not be discarded with household waste. Take to your local authority waste disposal centre.

Handy Hints

- Regularly check and ensure that all bolts and fittings are tightened properly.

Components - Panels

If you have damaged or missing components,
call the **Customer Helpline Argos = 0345 6400800**

Please check you have all the panels listed below

1 Top panel x 1 (60.5 x 13.1cm)

2 Bottom panel x 1 (60.5 x 19.6cm)

3 Left Side panel x 1 (111 x 13cm)

4 Right Side panel x 1 (111 x 13cm)

5 Shelf panel(use screw) x 1 (58 x 12.9cm)

6 Shelf panel(use dowel) x 4 (58 x 12.9cm)

8 Middle Shelf x 3 (15 x 12.8cm)

9 Middle Shelf x 6 (20 x 12.8cm)

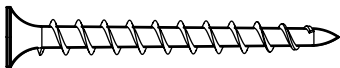

7 Back panel x 2 (113 x 30.2cm)

Components - Fittings

Please check you have all the fittings listed below

Note: The quantities below are the correct amount to complete the assembly. In some cases more fittings may be supplied than are required.

A  38mm Screw x 12	B  30mm dowel x 56	C  Nail x 38
D  Stickers x 8	E  26mm Screw x 2	F  12mm Screw x 2
G  Wall plug x 2	H  Wall strap x 2	

Tools required

Phillips screwdriver
(medium & large)

Ruler/tape
measure

7mm Suitable drill bit
(for use with wall plug)

Drill

Eye protection
(when using a hammer.)

Small
hammer

Ruler - Use this ruler to help correctly identify the screws

The screws length is measured from the head to the point (30mm screw shown).

Assembly Instructions

Step 1

Insert dowels

a: Insert dowel **B** into middle panels **8** **9**.

a:

b: Insert dowel **B** into shelf panel **6** and side panel **3** **4**.

b:

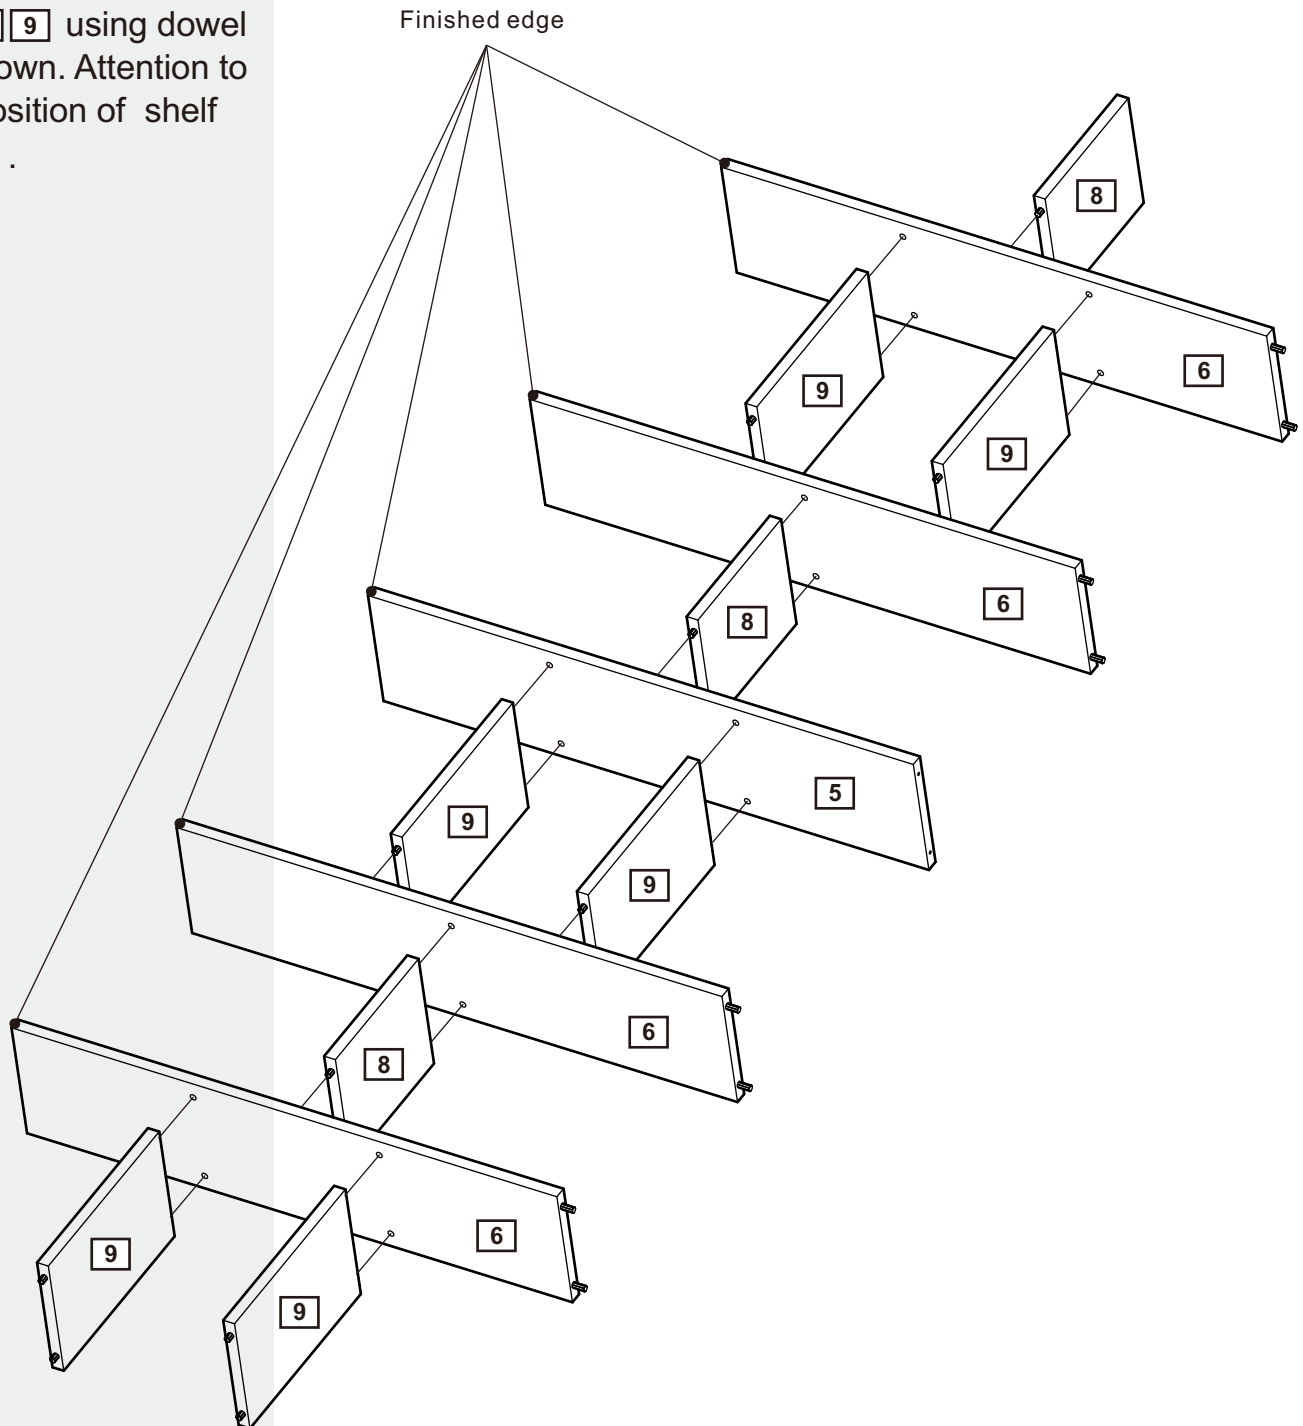

Assembly Instructions

Step 2

a:

Attaching panels

a: Attaching panel **5**
6 **8** **9** using dowel
as shown. Attention to
the position of shelf
5 .

Assembly Instructions

Step 2

Attaching panels

b: Attaching the side panels **3** **4** with screw **A** .

c: Attaching the top panel **1** onto unit with screw **A** .

C:

Assembly Instructions

Step 2

Attaching panel

d: Attaching the bottom panel **2** onto unit with screw **A**.

Step 3

Attaching back panels

a: Turn the unit up side down.

Lift with care.

Assembly Instructions

Step 3

Attaching back panels

b: Attaching the back panel **7**. One piece first, using nail **C**. Don't put the nail too close to the corner to avoid the screw penetrate the panel.

b:

C X 38

c:

c: Fix the another back panel **7** onto the unit using nail **C**.

Assembly Instructions

Step 3

Attaching back panels

d: Fit the wall strap **H** onto the back of unit with screw **F**.

Step 4

Paste sticker

Paste sticker **D** onto the screws on top panel and side panels.

Assembly Instructions

Step 6

Fixing to wall

It is recommended that the storage unit is fixed to a wall.

With help, move storage unit into position.

Lift with care.

Mark fixing hole on wall and remove storage unit.

Drill 7mm hole and insert wall plug **G**.

Before drilling, check wall

for hidden pipes and cables.

Reposition storage unit and fix wall strap using screw **E**.

Note: Wall plugs supplied are for solid walls only.

The correct type of fixing must be used for your wall, seek professional advice if in doubt.

If you need help or have damaged or missing parts, call the **Customer Helpline**

A Guide to - Wall Mounting & Fixings

Important note:

If plastic wall plugs are supplied with your product:

- these are only suitable for use in masonry walls.

If you are in any doubt about the correct wall plugs for your wall, seek professional advice.

Failure of the product due to using incorrect fixings is the responsibility of the installer.

Important: When drilling into walls always check that there are no hidden wires or pipes etc.

Make sure that the screws and wall plugs being used are suitable for supporting your unit. Consult a qualified tradesperson if you are unsure.

Hints:

- 1: General rule:** Always use a larger screw and wall plug if you are not sure.
- 2:** Ensure you use the recommended drill bit to match the wall plug and hole size.
- 3:** Ensure you drill the hole horizontally, do not force the drill or enlarge the hole.
- 4:** Take extra care when drilling high walls, ceilings and ceramic tiles. Ensure wall plugs are inserted beyond the thickness of the ceramic tiles to avoid the tiles splitting or cracking.
- 5:** Ensure wall plugs are well fitted and are a tight fit in the drilled hole.

Types of walls

You can use one of the following types of wall plug if your walls are made of brick, breeze block, concrete, stone or wood.

No.1 "General Purpose" wall plug

Generally aerated blocks should not be used to support heavy loads, use a specialist fitting in this case. For light loads, general purpose wall plugs can be used.

No.2 "Plasterboard" wall plug

For use when attaching light loads on to plasterboard partitions.

No.3 "Cavity Fixing" wall plug

For use with plasterboard partitions or hollow wooden doors.

No.4 "Cavity Fixing-Heavy Duty" wall plug

For use when fitting or supporting heavy loads such as shelving, wall cabinets and coat racks.

No.5 "Hammer Fixing" wall plug

For use with walls stuck with plasterboard. The hammer fixing allows it to be fixed to the wall rather than the plasterboard. Always check the fixing is secure to the retaining wall.

No.6 "Shield Anchor" wall plug Heavy loads

For use with heavier loads such as TV & HiFi speakers and satellite dishes etc.

Care & Maintenance

Safety: Always check the fitting and location to ensure your safety in and around the home.

Fitting: From time to time check the fitting to ensure the wall plugs or screws do not become loose.
