

EVERGREEN® Multi Purpose Lawn Seed

Ideal for creating a new lawn,
over-seeding or repairing bare patches

WATERSMART for
optimum water absorption

PREMIUM SEED

**50% FASTER
GERMINATION***

INSTRUCTIONS FOR USE

Rake

Rake the area to remove all weeds, stones or dead grass. If over-seeding ensure you mow the grass short first. Lightly cover the area with Miracle-Gro® Lawn Dressing. Level and firm by treading the soil.

Shake

Shake the box to mix the seeds. If over-seeding apply 20g/m² (approx a handful) and for new lawns or bare patches 30g/m².

Using the handy sprinkler on the side of pack, create a criss-cross pattern by sowing half the seed from left to right and the rest from top to bottom. Gently rake in and tread the seeds into the soil.

Water

Soak with a fine spray and keep soil moist for the next few weeks.

When will I see the results?

In ideal conditions when the soil is moist, grass will start to appear from 5 days. In less favourable conditions allow 10-14 days.

When do I use it?

Apply to your lawn during March to early October once frost has passed.

How much will I need?

This pack will create a new lawn of 56m² (7m x 8m). To determine the size of your lawn multiply the length by the width in metres.

Alternatively a lawn with 4 by 4 standard fence panels (1.82m width), will cover approx 56m².

* Aftercare for a thicker, healthier lawn

Mowing

The grass can be trimmed when 5-8cm.

Each time you mow, lower blade height a level until it's at 3cm. Do not cut more than 1/3 off the growth at any one time.

Feeding

Start feeding your lawn after the second mowing to ensure it's kept healthy. See our website for fertiliser recommendations.

Children and pets

It's fine to use this product in gardens with children and pets, but little feet can damage developing seeds, so it's best to keep them off the treated areas until the grass has established.

* Trials have proved that Miracle-Gro® grass seed germinates 50% faster than some other commercial grass seeds.
