

Making Life Easier And Safer

Staying in touch with your family and friends is convenient and easy when using your microTALK® radio. Some of the many uses you will discover include:

Communicating with others while hiking, biking, and working; keeping track of family and friends at a crowded public event; checking with travel companions in another car; talking with neighbors; arranging meeting spots with others while shopping at the mall.

Call Button
Press one time to alert others that you are calling. This will send a ringtone to the other person.

Talk Button
Press and hold the **Talk** button to communicate with others. The microphone should be about 2 inches from your mouth. When talking, speak in normal voice. Release the **Talk** button when you are finished talking and listen for a response from the other person. You cannot receive at the same time while pressing the **Talk** button.
NOTE: Both radios must be on the same channel to communicate.

Menu/Power Button
Press and hold **Menu** button for 4 seconds to turn the radio on or off. To change the channel press the **Menu** button once (do not hold) and once the channel is flashing press the + or - buttons to select your channel. To scan your channels to either monitor or find someone in your group with a different channel, press the **Menu** button twice until the **Scan** icon appears with a - flashing on the display. Press the + button until the Y appears and then press the **Talk** button to start scanning. To turn scanning off, press the **Menu** button twice and a Y should appear flashing on the screen below the scan icon. Press the - button to turn off scan mode. Press the **Talk** button to exit.

Installing Batteries
To Install or Replace Batteries:
1. Remove belt clip by pressing on the release tab and sliding belt clip up at the same time.
2. Remove back cover by sliding it down.
3. Insert 3 (AAA) batteries per radio and position batteries according to polarity markings.
• Do not attempt to charge alkaline batteries.
• Do not mix old and new batteries.
• Do not mix alkaline, standard (carbon-zinc), or rechargeable (Ni-Cd, Ni-MH, etc.) batteries.
