KEEP AWAY FROM EYES.
WASH OFF SPLASHES (IMMEDIATELY).
DO NOT BREATHE SPRAY.
WASH HANDS AND EXPOSED SKIN AFTER USE.

Environmental protection

Do not contaminate water with the product or its container.
Do not empty into drains.
Direct application away from ponds and other surface water bodies.

Storage and disposal

KEEP PRODUCT IN ORIGINAL CONTAINER, tightly closed, in a safe place.
KEEP PRODUCT AWAY FROM CHILDREN AND PETS.
KEEP AWAY FROM FOOD, DRINK AND ANIMAL FEEDING STUFFS.
PROTECT FROM FROST.

Poison Information:

For information or to report a poisoning incident in Ireland contact The National Poisons Information Centre (01 8092166), retain the label for reference.

WHEN TO USE

Spray at the first sign of insects or symptoms until plants are clear of pests. For optimal control and persistence of effect, repeat applications are required at 7-10 day intervals. It is also essential to ensure comprehensive coverage of the plant surface, particularly the undersides of leaves. On fruit trees, depending on tree size, complete coverage may not be practical or appropriate, and the product is unlikely to give complete control of widespread populations.

The best time to spray is early morning or early evening, avoiding bright sunshine.

DO NOT USE BugClear™ Fruit & Veg during periods of high temperature (above 25°C) or when temperature might become high or during periods of high intensity. Blooms and young leaves may react sensitively.

INSTRUCTION FOR USE

FOR USE ONLY AS A HOME GARDEN INSECTICIDE & MITE KILLER

Read all Safety Instructions before use

Maximum spray concentration: 20ml product per litre of water.

Maximum number of treatments: 3 per crop

WHERE TO USE

BugClear™ Fruit & Veg is ideal for ornamental plants, fruits and vegetables. Some plants maybe sensitive to oils. It is always advisable to test a sample of plants by treating them and leaving for at least two weeks, before treating a large or valuable collection.

Do not treat sensitive species of floral plants with delicate foliage (e.g., poinsettias, cyclamens, kalanchoes, African violets, ferns, or ivy, etc.)

Do not spray on directly onto blooms.

HOW TO USE

1. SHAKE BOTTLE WELL BEFORE USE
2. Using measuring cap provided add 20ml/1L of water
3. Mix and use with pressurised sprayer immediately
4. Spray evenly to wet upper and lower surfaces of leaves

Any run-off onto desirable surfaces should be washed away as staining can occur if the solution is allowed to dry.

Clean the spray equipment thoroughly immediately after use.
