issue 1 - 9/3/16
Important - Please read these instructions fully before starting assembly

- Check you have all the components and tools listed on the following pages.
- During assembly do not stand or put weight on the product, this could cause damage.
- To reduce the likelihood of damaging your product please ensure that your power drill is set on a low torque setting.

- Remove all fittings from the plastic bags and separate them into their groups.
- Assemble the item as close to its final position (in the same room) as possible.

- Keep children and animals away from the work area, small parts could choke if swallowed.
- Assemble on a soft level surface to avoid damaging the unit or your floor.

- Make sure you have enough space to layout the parts before starting.
- Parts of the assembly will be easier with 2 people.

Care and maintenance

- Only clean using a damp cloth and mild detergent, do not use bleach or abrasive cleaners.
- From time to time check that there are no loose screws on this unit.
- This product should not be discarded with household waste. Take to your local authority waste disposal centre.

Handy Hints

- Assemble all parts and bolts loosely during assembly, only once the product is complete should you fully tighten the bolts.
- Regularly check and ensure that all bolts and fittings are tightened properly.

Note: if required the next page can be cut out and used as reference throughout the assembly. Keep this page with these instructions for future reference.
Tallboy (45 x 45 x 127.3 cm)
Components - Fittings

Please check you have all the fittings listed below.

**Note:** The quantities below are the correct amount to complete the assembly. In some cases more fittings may be supplied than are required.

<table>
<thead>
<tr>
<th>A</th>
<th>B</th>
<th>C</th>
</tr>
</thead>
<tbody>
<tr>
<td>Wall strap 250 mm x 1</td>
<td>Ø12x1mm Washer x 1</td>
<td>Ø3.5x15 mm Screw x 1</td>
</tr>
</tbody>
</table>

**Tools required**

- Phillips screwdriver (medium & large)
- Flatblade screwdriver (medium)
- 7mm Suitable drill bit (for use with wall plug)
- Drill
- Ruler/tape measure

Ruler - Use this ruler to help correctly identify the screws.

The screws length is measured from the head to the point (15 mm screw shown).
Step 1

Drawer handles are pre-assembled reversely. Disassemble the handle and re-attach as shown in the figure.
Assembly Instructions

Step 2

Fixing strap to wall.

It is recommended that the unit is fixed to a wall.

Mark fixing hole on wall.

Fasten wall strap A to the wall using a suitable wall screw/plug system.

⚠️ Warning: Before drilling, check wall for hidden pipes and cables.

Note: The correct type of wall screws must be used for your wall. Please seek professional advice if in doubt.

Step 3

Fixing unit to wall.

With the help of another person move the unit into position.

Place the wall strap on the top of the unit.

Fasten the wall strap to the unit with screw C and washer B.

Assembly is complete.

A Guide to - Wall Mounting & Fixings

**Important note:**
If plastic wall plugs are supplied with your product:
- these are only suitable for use in masonry walls.
If you are in any doubt about the correct wall plugs for your wall, seek professional advice.
Failure of the product due to using incorrect fixings is the responsibility of the installer.

**Important:** When drilling into walls always check that there are no hidden wires or pipes etc.
Make sure that the screws and wall plugs being used are suitable for supporting your unit. Consult a qualified tradesperson if you are unsure.

**Hints:**
1. **General rule:** Always use a larger screw and wall plug if you are not sure.
2. Ensure you use the recommended drill bit to match the wall plug and hole size.
3. Ensure you drill the hole horizontally, do not force the drill or enlarge the hole.
4. Take extra care when drilling high walls, ceilings and ceramic tiles. Ensure wall plugs are inserted beyond the thickness of the ceramic tiles to avoid the tiles splitting or cracking.
5. Ensure wall plugs are well fitted and are a tight fit in the drilled hole.

**Types of walls**
You can use one of the following types of wall plug if your walls are made of brick, breeze block, concrete, stone or wood.

<table>
<thead>
<tr>
<th>No.</th>
<th>Description</th>
<th>Use</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>&quot;General Purpose&quot; wall plug</td>
<td>Generally aerated blocks should not be used to support heavy loads, use a specialist fitting in this case. For light loads, general purpose wall plugs can be used.</td>
</tr>
<tr>
<td>2</td>
<td>&quot;Plasterboard&quot; wall plug</td>
<td>For use when attaching light loads on to plasterboard partitions.</td>
</tr>
<tr>
<td>3</td>
<td>&quot;Cavity Fixing&quot; wall plug</td>
<td>For use with plasterboard partitions or hollow wooden doors.</td>
</tr>
<tr>
<td>4</td>
<td>&quot;Cavity Fixing-Heavy Duty&quot; wall plug</td>
<td>For use when fitting or supporting heavy loads such as shelving, wall cabinets and coat racks.</td>
</tr>
<tr>
<td>5</td>
<td>&quot;Hammer Fixing&quot; wall plug</td>
<td>For use with walls stuck with plasterboard. The hammer fixing allows it to be fixed to the wall rather than the plasterboard. Always check the fixing is secure to the retaining wall.</td>
</tr>
<tr>
<td>6</td>
<td>&quot;Shield Anchor&quot; wall plug</td>
<td>For use with heavier loads such as TV &amp; HiFi speakers and satellite dishes etc.</td>
</tr>
</tbody>
</table>

**Care & Maintenance**
**Safety:** Always check the fitting and location to ensure your safety in and around the home.

**Fitting:** From time to time check the fitting to ensure the wall plugs or screws do not become loose.
