Hardware

In the box

- 1x Oculus Quest 64 GB
- 2x Touch controllers
- 2x AA battery
- 1x USB 3.0 type C cable
- 1x 15 W Power Adapter

Before you start

- Do not allow the lenses to come in contact with periods of **direct sunlight**. This will permanently damage the screen and does not fall under warranty.
- Please install the "Oculus App" on your smartphone. This is necessary to install the device.

How to install

- 1) Put on the headset and press the "Power Button" for approximately 3 seconds.
- 2) The instructions of the headset will start automatically.
 - a) Take your phone and download the Oculus.
Android:
<https://play.google.com/store/apps/details?id=com.oculus.twilight>
or
IOS:
<https://apps.apple.com/us/app/oculus-vr/id1366478176>
 - b) Create an Oculus Account here:
<https://secure.oculus.com/sign-up/>
 - c) In the Oculus application after logging in, choose Oculus Quest on your phone..
 - d) Follow the tutorial on your phone.
 - e) The phone will search for your Oculus Quest automatically.
 - i) If the phone does not find the Oculus Quest headset, you will be asked to enter a figure code, which appears at the screen of the headset. This is a unique link number.
 - f) Next you can connect the headset to your Wi-Fi - choose the selected wifi and enter the password.
 - g) Prepare your Controllers by putting in the battery and the Lanyards through the bottom of the "Controller-Clip".
 - h) Confirm the instructions. The Oculus Quest Headset will be automatically updated.
- 3) Watch the instruction videos at screen of your headset.
- 4) The Oculus Quest will start the main menu - enjoy the ride!

How to connect the Wi-Fi

- Click on 'Settings' in the task bar.
- Click on 'Wi-Fi'.
- Choose the Wi-Fi you want to connect with and select it.
- Enter the password of the selected Wi-Fi and click connect.

Main Menu in the device

- *Task bar of the Menu*
 - Here you will find the most common functions/symbols. (Navigate - Social - Sharings - Notifications - Settings)
- *Home*
 - The last used application and the most popular Oculus applications are displayed here.
- *Oculus Store*
 - Search and download new Applications.

How to download applications from the Oculus store

1. Click on 'Oculus Store' in the Oculus Quest main menu.
2. Search for the desired application in the Oculus store or search for the application manually with the search function. (Navigate -> Search)
3. Click on the desired application and then press on 'download' or 'buy'.
4. After downloading, the application will appear in your Oculus library.

VR Expert tips

Developer Mode

1. Go to the Oculus App on your phone and log in.
2. Go to settings.
3. Connect the phone with your device.
 - a. Search for the Serial Number (S/N:IK...) of your Quest.
 - b. You can find it on the holding of your device on the left side.
4. As soon as you are connected with your device the red light will turn green and a small arrow will appear.
5. Click on this arrow.
6. Go to 'more settings'.
7. Go to 'developer mode'.
8. Turn on developer mode.

Want to know more about developer mode, see:

<https://developer.oculus.com/documentation/native/android/mobile-device-setup/>

VR Expert tips

How to download an application using a redeem code

1. Go to the Oculus app on your phone and log in.
2. Go to settings.
3. Scroll down to Payment.
4. Press Redeem Code.
5. Enter your Redeem Code.
6. You will now be able to download the application from your Oculus library.

How to download your own application

1. Turn on your computer and open an internet browser.
2. Go to: <https://sidequestvr.com/setup-howto>
3. Download sidequest on your computer and install the right version.
4. Connect your headset through a USB-Cable with your computer.
5. Watch the screen of your headset and click allow twice to connect.
6. Make sure the device is in 'developer mode' (see section above).
7. Make sure that the device is connected and Sidequest recognizes your device. At the sidequest window a green light should appear at the top left side.
8. Click on 'Install apk file from folder on computer' in the taskbar.
9. Select the application you want to install.
10. In 'running task' at the sidequest window you can follow the process of downloading.
11. Restart the headset.
12. In your Oculus Quest, go to "Navigate" in the taskbar.
13. Choose "library".
14. Go to 'Unknown Sources'.
15. Search for the downloaded application and open it!
