## What's Included

## KEY FEATURES + BENEFITS

### QuikStories Enabled

HERO6 Black sends your footage to your phone where the app transforms it into an awesome edited video—automatically.<sup>1</sup>

### 2x the Performance

With 4K60 and 1080p240 video, HERO6 Black delivers 2x the performance compared to HERO5 Black.

### Best-Ever Image Quality

With an all-new GP1 chip optimized for GoPro capture, HERO6 Black delivers vastly improved image quality and smooth stabilized footage.

### Next-Level Stabilization

With our most advanced video stabilization yet, HERO6 Black captures super smooth footage, whether it's handheld or mounted to your gear.

### 3x Faster Offload Speeds

Featuring 5GHz Wi-Fi, you can copy photos and videos over to your phone faster than with HERO5 Black.<sup>3</sup>

### Rugged + Waterproof

Durable by design, HERO6 Black is waterproof to 33ft (10m) without a housing.

### Improved Low-Light Video + Photos

Capture crisp, clear video and photos, even in low-light conditions.

### GPS

HERO6 Black captures your GPS path, speed, elevation gain and more. Add your stats to your videos in the Quik desktop app.<sup>4</sup>

### Footnotes

<sup>1</sup>QuikStories requires the GoPro and Quik mobile apps, available free for iOS® and Android™. To create a QuikStory, your HERO6 Black must be connected to the GoPro app.

<sup>2</sup>Compared to HERO5 Black.

<sup>3</sup>Your phone model and region must both support 5GHz. Otherwise, 2.4 GHz is available. Actual offload speeds may vary based on environmental conditions. Offloading media from your GoPro camera to your phone does not use cellular data.

<sup>4</sup>The Quik desktop app is required to add GPS data overlays to your videos. Download it for free at [gopro.com/apps](http://gopro.com/apps).
