

**B110**

Corded Telephone

## USER GUIDE

### User Guide

#### Unpacking your Telephone

In the box are:

- Base Unit
- Handset
- Coiled Handset cord
- Telephone line cord for Base Unit
- User manual

Keep the packaging materials in a safe place in case you later need to transport the unit.

**Keep your sales (till) receipt, which is your guarantee.**

### 1. Where to find it

Please keep your sales (till) receipt, which is your guarantee.

**REDIAL button**  
you may need this if you are using your B110 on a PBX or with Services BT'S Select

**Mute button**  
press and hold down this button to mute the mouth-piece (during a call so the person on the other end can't hear you)

**LAST NUMBER R(RECALL)**  
press this to make a repeat call to the last number dialled

**SIMPLE VALUE**  
**BY ARGOS**

### 2. Installation

#### 1. Locating the Base unit

ⓐ the telephone line cable will reach your telephone line socket or extension socket.

ⓑ it is not close to a sink, bath or shower, or anywhere else where it might get wet.

ⓒ it is not close to other electrical equipment - fridges, washing machines, microwave ovens, TVs, fluorescent lights, etc.

#### 2. Plug the coiled handset cord into the Handset. Plug the other end into the jack on the left side of the Base unit.

#### 3. Place the Handset in the Base unit.

Always use the telephone line cord supplied with your B110 phone. Other telephone line cords may not work.

#### 4. Plug one end of the telephone line cord the jack at the back of the base unit and the other end into modular wall jack.

#### 5. Lift the Handset and check for Dial tone in the earpiece.

### 3. Making and answering calls

#### To make a call

- 1 Lift the handset and wait for Dial tone
- 2 Dial the telephone number using the keypad

#### Last Number Redial

To make a repeat call to the last number you dialled (up to 32 digits):

- 1 Lift the handset and wait for Dial tone
- 2 Press **REDIAL**

#### Mute

While you are on a call, to mute the mouthpiece so that your voice cannot be heard

- 1 Press and hold **MUTE**

#### Use on a PBX

If you are using your **B110** on a PBX and the PBX User Guide tells you to press **R(RECALL)**, press the **R** button on your **B110**

*To make a call:*

- 1 Key In the outside line access digit then press **REDIAL**
- 2 Dial the telephone number

PBX compatibility	Timed break recall: 100 ms. Signalling type: DTMF (dual-tone multifrequency) also called tone dialing.
Network connection	This equipment is intended to be used in the UK only. Operation on other countries PSTN termination points

## 4. Troubleshooting

**!** The **B110** must be serviced by trained engineers. NEVER attempt any repairs or adjustments yourself - you could invalidate the Guarantee.

If the phone does not ring...

Make sure your **B110** is fully plugged into the telephone line socket.

Check that the total REN value of all equipment connected to your telephone line is no more than 4. Disconnect one or more telephones and see whether that helps.

If you cannot make Calls ...

Make sure your **B110** is fully plugged into the telephone line socket.

Disconnect all other instruments connected to the same line as the **B110** and see whether you can make a call.

Disconnect the **B110** from the telephone line and plug a different phone into the socket. Try making a call. If this works, the line is OK.

If you are using a two-way socket adapter, remove it and plug a telephone directly into the socket. If the call now works, the adapter may be faulty.

If you think the fault may be on the exchange line, contact the service provider.

## 5. Guarantee and service

This product is guaranteed against manufacturing defects for a period of 1 Year.

This does not cover the product where the fault is due to misuse, abuse, of the instructions, or where the product has been the subject of unauthorised modifications or alterations, or has been the subject of commercial use.

In the event of a problem with the product within the guarantee period please return it to your nearest Argos store.

If the item is shown to have had an inherent defect present at the time of sale the store will provide you with a replacement.

Your statutory rights remain unaffected.

### Connection and conditions for use

You can connect your B110 phone to a direct exchange line (DEL) - a line connected to a local exchange, with its own phone number; to an extension socket connected to a DEL; or to an extension on an approved compatible PBX. Do not connect the B110 phone as an extension to a pay phone.

The ringer equivalence numbers (RENs) of all instruments (phones, fax machines, etc.) connected to an exchange line must not add up to more than 4 - otherwise, one or more of them may not ring and/or answer calls correctly

The B110 phone has a REN of 1, and most other telephones have a REN of 1 unless marked otherwise.

Waste electrical products must not be disposed of with household waste. These equipment should be taken to your local recycling centre for safe treatment.
