# Name of parts

# Assembly Instructions

## Step 1 To unfold the stroller

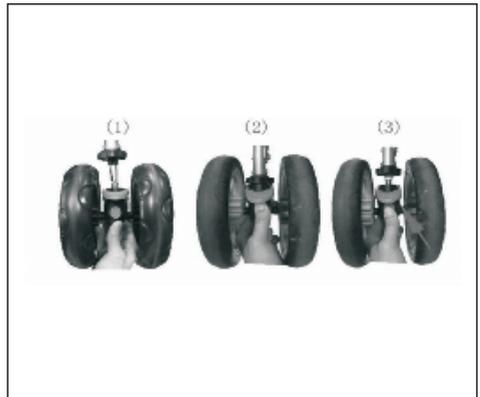

Release the folding lock, pull the handle bar backwards until you hear the “click”.

## Step 2 Front wheel assembly

1. Slide front wheel brackets into front legs until you hear a “click” sound.

2. To remove the front wheels, press the small button and pull downwards.

## Step 3 Rear wheel assembly

Fit the wheel on the axle, place the workpiece part 1 then part 2 then part 3.

To attach the rear wheels, follow this order

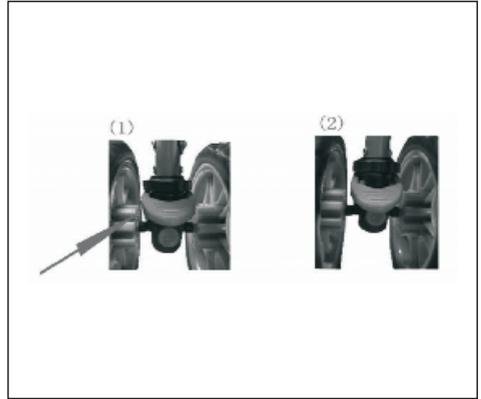

# Use and operation after assembly

## To lock the front wheels

1.The front wheels must be turned in the straight forward position, then push the fixing lever upwards until the button locks in place.

2.To release the wheels for free swivel, push the fixing lever downwards.

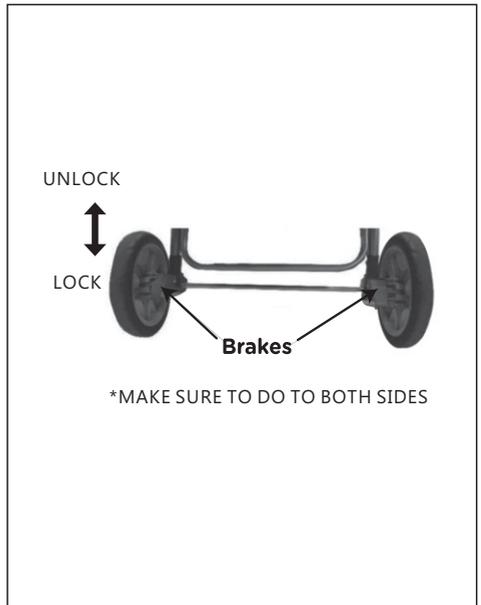

## Use the brake

To lock the rear wheel brakes.

1.Press both brake pedals down until they “click” into the locked position. Make sure the brake pedals are pressed down completely.

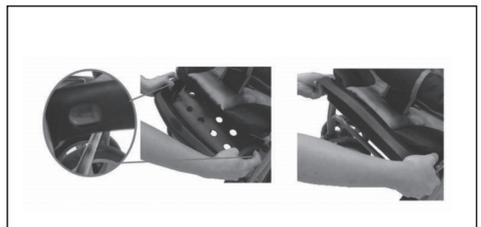

2.Always set both brake pedals whenever you park the stroller.

To unlock the rear wheel brakes. Lift both brake pedals until they “click” into the unlocked position.

## Adjust footrest

To adjust the footrest, pull the footrest adjust button and adjust the footrest to the correct position.

# Use and operation after assembly

## Use the safety belt

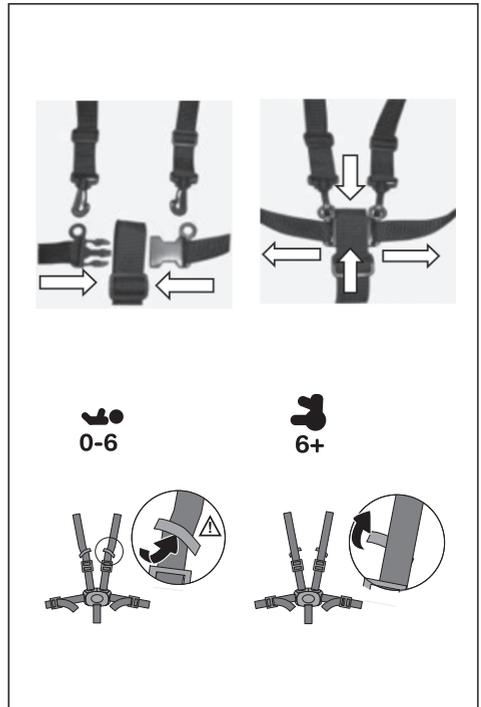

Use always the safety belt. Check the belt regularly and adjust the straps when your child is getting bigger.

The rear seat is designed for a child from birth to 36 months. Always use the harness in described manner when you use the pushchair.

There are two adjustment positions for the harness.

From birth to 6 months: Insert the harness through the slots.

From 6 months: No need to insert the harness through the slots.

## Adjustment of the canopy

The canopy can be adjusted freely into the desired position by turning the front bar of the canopy.

To remove the canopy, press the release buttons and pull outwards.

To install the canopy by inserting the tip of the canopy to the canopy holder until you hear a “click” sound. The rear canopy can not be detached.

# Use and operation after assembly

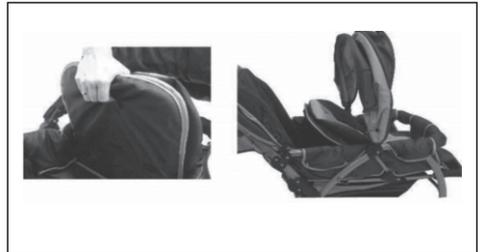

## Adjustable handle bar

1. Keep both release button pressed.
2. Turn the handle bar to the desired position.

## Adjust backrest

To lower the backrest position, lift the backrest adjusting lever up firmly and put the backrest into the correct position.

## To fold the stroller

1. Close both canopies and place the two seats in sitting position. The front canopy must be pushed into the front of the pram.

2. Press the button below the left latch and lift up simultaneously the two black latches on each side of the handlebar.

Switch forwards and the handlebars will block the folded position with the hook.

# Care and Maintenance

## General

- This pushchair was designed and manufactured with qualified materials and craftsmanship. Always use the safety harness.
- Always check your pushchair for bullet points. Lubricate moving parts regularly, especially the wheels, and lower parts of the chassis that tend to collect dirt.

## Inspect regularly for:

- Regularly inspect the locking devices, breaks, wheels, harness assembly, catches, seat adjusters, joints and fixings to ensure they are secure and in full working order. If there is something wrong, please change it.
- Should any of the above be evident do not use and contact the Helpline: 03456 400 800

## Care and Maintenance:

- To avoid risk of injury to your baby, please check and maintain the stroller periodically. Fabric cover may be cleaned in accordance with the fabric cover. Allow to dry naturally, ideally on a washing line. Do not iron any part of the fabric cover.
- Regularly inspect the locking devices, breaks, wheel, harness assembly, catches, seat adjusters, joints and fixing to ensure they are secure and in full working order. If there is something wrong, please change it. Please assemble and detach it according to the instructions.
