

Please take time to read this leaflet carefully and retain it for future reference.

Installing the light

Identify the location and direction of any hidden supply cables or service pipes before drilling fixing holes.
Securely fix to the wall and hang the lamp as indicated in the diagram

Locate the electrical cable so that it reaches the charging socket without causing a trip hazard.
Cable clips have been provided to assist with keeping the wire close to the wall. (See step 5 below)
Non-replaceable light source. Non-replaceable control gear. Wiring connected. (see on product for details.)
The control gear must be compliant to EN61347-2-13
Your fitting is now ready for use.

1. Using the fitting as a guide, mark the required hanging locations.
2. Drill holes in the desired location.
3. Affix wall plugs.
4. Carefully screw the fitting to the wall. For keyhole type hangings (4b) use the washers provided.
5. Carefully secure the charging cable using the cable clips supplied.
6. Carefully push the DC end of the USB connector into the DC socket on the lamp.

Care and Maintenance Advice

In order to prevent damage or wear to your lighting, take care to ensure the following:

If your fitting requires cleaning, you should use a soft dry cloth.

Never use polish containing abrasives or solvents as they may damage the finish.

This product should be disposed of responsibly at the end of its life. Please recycle where facilities exist. Check with your Local Authority or retailer for recycling advice (Waste Electrical and Electronic Equipment Directive)

HELPLINE

If you receive this item with parts broken or missing, please telephone:

0333 0050077

Please have ready your name, address, tel. no., product reference, where purchased

and parts required. An answering service is in operation outside office hours and during busy periods.

We regret that we are unable to give advice on internal house wiring.
