|  |   |

#### 2. FITTINGS

##### IMPORTANT

- Read these instructions carefully and familiarise yourself with the procedure before assembling the unit.
- Check that you have all the component parts following the list above and familiarise yourself with each part before proceeding.
- Take all the fittings out of the plastic bag and separate them into their groups.
- Ensure you have enough space to lay out all the parts before assembly.
- To avoid scratching it is recommend that you assemble the unit on a soft level surface.
- Please unzip front door before adding cover to frame
- Not suitable for using heater inside or near this product.

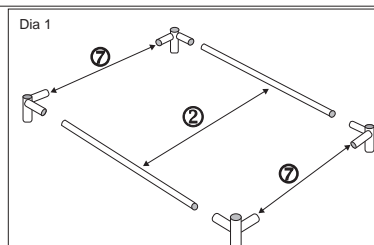

### 4 Tier Mini Greenhouse - Assembly Instructions

#### 3. ASSEMBLY INSTRUCTIONS

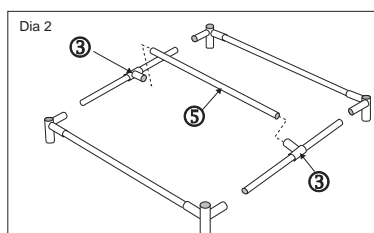

##### Stage 1- Fitting the frame

NOTE: There are many different kinds of Tubes. Ensure you check before assembly.

- Insert four plastic connector(7) into the ends of two long Tubes(2). See Dia 1.

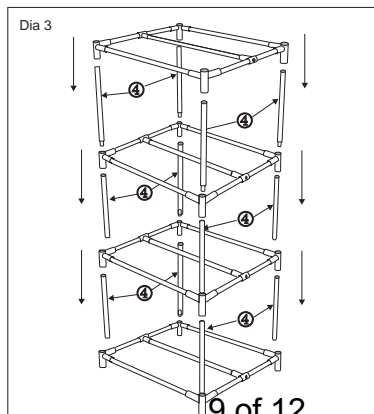

- Insert two T-Tubes(3) into the end of Medium Tube(5). Then insert the plastic connector(7) into the ends of T-Tubes(3). See Dia 2.

- Follow the same method in Dia 1 and Dia 2 to produce another three frames.

- Insert eight Short Tubes(4) into the plastic connector(7). See Dia 3.
