Inside the box:  
VAUX speaker and quick start guide.

**WARNING:**  
Only use the Amazon micro-USB cable  
and 9W adapter provided with  
your Echo Dot to Power and  
charge VAUX.

#### Getting to know VAUX

#### Connecting your Echo Dot

1. Unplug your Echo Dot and place it into the docking tray.
2. Pull back the rear silicone cover.
3. Plug in 3.5mm and micro-USB plug into Echo Dot.
4. Re-seat rear silicone cover.
5. Press power button and play.

Enjoy your VAUX plugged in. When fully charged, enjoy it cord-free.

**Note:** To remove the Echo Dot, first remove the 3.5mm plug, then the micro-USB plug.

Power button USB states:

**Amber:** Not powered ON / charging

**Green:** Not powered ON / fully charged

**Blue:** Powered ON

**Blue / Amber Flashing:** Battery low
