		Z ZTE Blade A510

Please note **OnePlus phones** have battery saving customisations that shut down apps to conserve power.

OnePlus users should try the following steps on their phone to prevent the Alexa app from being shut down:

1. Check if battery optimisation is turned off for Alexa app. Go to phone settings > Battery > Battery Optimisation > Amazon Alexa > Don't optimise > Done.
2. Try pinning the Alexa app in memory. Go to 'multitasking' and then tap on the lock icon for the Alexa app.
