ACCESSORIES

GLASS TURNTABLE

Placed on its support, the glass turntable can be used with all cooking methods.
The turntable must always be used as a base for other containers or accessories.
TURNTABLE SUPPORT

Only use the support for the glass turntable. Do not rest other accessories on the support.

WIRE RACK

This allows you to place food closer to the grill, for perfectly browning your dish. Place the wire shelf on the turntable.

COVER (IF PRESENT)

Useful for covering containers during microwave cooking and heating. The cover reduces splashes, keeps foods moist and can also be used to create two cooking levels.
It is not suitable for use in convection cooking or with any of the grill functions.

The number and type of accessories may vary according to which model is purchased.
Other accessories that are not supplied can be purchased separately from the After-sales Service.

There are a number of accessories available on the market. Before you buy, ensure they are suitable for microwave use and resistant to oven temperatures.

Metallic containers for food or drink should never be used during microwave cooking.

Always ensure that foods and accessories do not come into contact with the inside walls of the oven.

Always ensure that the turntable is able to turn freely before starting the oven. Take care not to unseat the turntable whilst inserting or removing other accessories.

FIRST TIME USE

. SET THE TIME

You will need to set the time when you switch on the appliance for the first time: The two digits for the hour will flash on the display.

Turn the adjustment knob to set the correct hour and press OK to confirm. The two digits for the minutes will start flashing. Turn the adjustment knob to set the correct hour and press OK to confirm.

Please note: to change the time at a later point, press and hold ▢ for at least 3 seconds while the oven is off and repeat the steps above.
You may need to set the time again following lengthy power outages.

DAILY USE

1. SELECT A FUNCTION

When the oven is off, only the time is shown on the display. Turn the selection knob to select one of the available functions.
2. SET THE FUNCTION

. MANUAL FUNCTIONS

After having selected the function you require, you can change its settings.
The display will show the settings that can be changed in sequence.

MICROWAVE POWER / TEMPERATURE
When the W icon flashes on the display, turn the adjustment knob to adjust the power setting and then press OK to confirm and continue to alter the settings that follow (if possible).

In the same way the °C icon flashes on the display, turn the adjustment knob to adjust the temperature setting and then press OK to confirm and continue to alter the settings that follow.

Please note: once the function has been activated, the power can be changed by pressing < two times to access the power settings menu, then turning the adjustment knob to change the setting.

DURATION

When the 🕐 icon flashes on the display, turn the adjustment knob to set the desired duration.
Once the displayed cooking time corresponds with what you desire, press ▷ to confirm and start the function.

Please note: During cooking, you can adjust the cooking time by turning the knob; each time you press ▷ the cooking time increases by 30 seconds.

. AUTOMATIC FUNCTIONS / AUTO DEFROST

CATEGORIES

Once you have chosen one of the automatic functions, you will need to select a category for the food you are cooking.

When the ⅋ icon flashes on the display, turn the adjustment knob to select the digit that corresponds to the desired category, then press OK to confirm.

WEIGHT

To achieve the best results, the automatic functions require you to enter the weight of the food, selecting from amongst the default settings: the oven will calculate the ideal length of time for the function to run for each category of food.

When the default setting appears on the display and the g icon flashes, turn the adjustment knob to enter the weight, then press ▷ to confirm and start the function.

3. ACTIVATE THE FUNCTION

Once you have applied the settings you require, press ▷ to activate the function.

Every time the ▷ button is pressed again, the cooking time will be increased by a further 30 seconds (only for manual functions).

Please note: You can press ☐ twice at any time to stop the function that is currently active.

. JET START

When the oven is switched off, it is possible to press ▷ to activate cooking with the microwave function set at full power (900 W) for 30 seconds.

. SAFETY LOCK

This function is automatically activated to prevent the oven from being switched on accidentally.

Open and close the door, then press ▷ to start the function.

4. PAUSE

For pausing an active function, for example to stir or turn the food, simply open the door.
To start it up again, close the door and press ▷ .
It is also possible to temporarily pause cooking by pressing ☐ . To resume the cooking process, close the door and press ▷ .

AUTOMATIC PAUSE
(STIR OR TURN THE FOOD)

Certain functions will pause to allow you to turn or stir the food.

When the oven pauses the cooking and "Turn food" or "Stir Food" appear on the display, open the door to turn or stir the food, then close the door and press ▷ to start cooking again.

Please note: after 2 minutes, even if the food has not been turned or stirred, the function will start again automatically.

5. END OF COOKING

An audible signal will sound and "End" will appear on the display to indicate that a cooking function is complete.

For some functions, it is possible to delay cooking while maintaining previously established settings: turn the adjustment knob to set a new cooking time, then press ▷ .

. TIMER

When the oven is switched off, the display can be used as a timer. The timer does not activate any of the cooking cycles.
To activate the function and set the cooking time you require, turn the adjustment knob.

Press OK to activate the timer. An audible signal will sound and the display will indicate once the timer has finished counting down the selected time. To make a change to the timer once it has been activated, turn the adjustment knob, then press OK to confirm.

To interrupt it or return to the current time display, turn the adjustment knob until 0:00 is on the display and press OK .

Please note: Once the timer has been activated, you can activate a function as well: The timer will continue to count down the selected time automatically without having any effect on the function. To go back to viewing the timer, wait for the function to finish or stop the oven function by pressing ☐ .

CLEANING

Make sure that the appliance has cooled down before carrying out any maintenance or cleaning.

Do not use steam cleaners.

Do not use wire wool, abrasive scourers or abrasive/corrosive cleaning agents, as these could damage the surfaces of the appliance.

INTERIOR AND EXTERIOR SURFACES
• Clean the surfaces with a damp microfibre cloth. If they are very dirty, add a few drops of pH-neutral detergent. Finish off with a dry cloth.
• Clean the glass in the door with a suitable liquid detergent.
• At regular intervals, or in case of spills, remove the turntable and its support to clean the bottom of the oven, removing all food residue.
• The grill does not need to be cleaned as the intense heat burns away any dirt. Use this function on a regular basis.

ACCESSORIES
All accessories are dishwasher safe.
