

hands-free

AUTOMATIC ELECTRIC can opener

Thank you for purchasing your Hands Free Can Opener from JML.

This automatic electric can opener fits almost any can size and shape, including ring-pull cans. Its one touch operation is safe and hygienic. The Hands Free Can Opener cuts neatly, and it leaves no sharp edges.

Please read these instructions carefully before first use, and retain for your future reference.

Requires 4 x 1.5v AA batteries (not included)

Using your Hands Free Can Opener

1. To insert new batteries, slide back the lid on the top of the Hands Free Can Opener to access the battery compartment. Insert 4 x 1.5V AA Alkaline batteries (not included) in the correct polarity, and replace the lid.
2. Place the lip of the can between the small cog and the larger cutting wheel.
3. Turn the can opener on by pushing the power button down. Hold the can opener in place for one moment. Simply leave it to neatly cut around the entire can edge.
4. Once the can opener has completed one full pass of the can, push the power button again to switch off the unit.
5. The magnet on the can opener will often pick up the can lid and remove it. If the magnet does not hold, you may need to carefully lift the lid off by hand. Please note that the cut around the can will be very fine and may not be immediately obvious.

Cleaning your Hands Free Can Opener

- Use a clean, damp cloth to wipe the Hands Free Can Opener.
- Do not submerge the unit in water.

Note: This unit will not work correctly with zinc batteries. Always use alkaline batteries only (not included.)

Warnings

This unit contains a sharp blade, be careful to keep fingers away. This is not a toy – keep away from children. DO NOT use the unit on cans containing gas. Take care to fit your batteries correctly and dispose of batteries properly. Do not mix old and new batteries.

Guarantee

This product is guaranteed for one year against all defects of workmanship and materials. This guarantee does not affect your statutory rights. For refunds and replacements, please return the item to the retailer where you initially made the purchase. You will be required to provide proof of purchase. If you have any problems or queries about this product, please contact JML customer services.

Disposal and Environment

This product is covered by the waste electrical and electronic equipment (WEEE) regulations. It should not be discarded with normal household waste, but taken to your local collection centre for recycling. For further information, please contact your local authority or approved disposal agency.
