

GETTING STARTED

CHARGE YOUR SMARTWATCH

- Connect and charge your watch using the magnetic USB cable provided.
- Your smart watch will take approximately 2 hours to fully charge.

TURN ON YOUR SMARTWATCH

- Remove the printed screen protector. Below this is an additional screen protector. It is advised that you keep this on your watch to protect it from wear and tear.
- Press and hold the button for 5 seconds to turn your smart watch on.
- The home screen of the watch will be displayed.
- From the home screen, swipe from left to right to view the recently used menu screen. Swipe right again to access the full menu.

- Swipe left to view your favourites.
- Swipe from left to right to go back in any menu.
- The screen will turn off when your smart watch is not in use. To wake up the screen press the button.
- With “turn wrist to activate display” turned on, the screen will also wake up when you turn your wrist. You can turn this on/off in the LIMIT SMART app, Tap your device name > Smart Wake Up OR through your smart watch by swiping down, tapping the cog icon, then tapping “Display” and tapping to turn on/off “Wrist Raise”.
- To set the length of time the screen will stay awake for, swipe down on your watch home screen and tap the cog to enter the Settings menu. Tap “Display”, then tap “Sleep” and scroll through the list to set the amount of seconds the screen will stay awake for. The maximum setting is 30 seconds. Please note that having the screen time set to longer will consume the battery life more quickly.

DOWNLOAD AND INSTALL THE APP

- To download the app, please search “LIMIT SMART” on your phone.
- Or scan the appropriate QR code using your smartphone camera or QR code reader app.

The LIMIT SMART app will work on the following smartphones:
Android (version 8 and above)
Apple iOS (version 12 and above)

Scan here
for Limit
Smart App.

CONNECT YOUR SMARTWATCH TO THE APP

- Open the app, read through and accept the permissions to continue.

- Enter your name and details, add a photo (optional).
 - Set your steps, distance, calories, and sleep goals.
 - Select and pair your smart device.
 - Your watch will appear in the list of nearby Bluetooth devices as “LIMIT-RO” and will also have a unique code made up of letters and numbers. You can find your watch’s Bluetooth name by swiping down from the home screen and tapping on the ‘i’ icon then tapping “Version”.
 - Select the correct Bluetooth name from the list on the app to connect to your smart watch.
 - The watch will display the correct time after pairing is successful.
- After connecting, a message may be displayed prompting you to update to the latest version. Follow the on-screen instructions to do this. This is important to ensure all features of your watch will work correctly.**

FOR THE APP TO FUNCTION CORRECTLY PLEASE TAKE NOTICE OF THE FOLLOWING:

- Do not pair the watch directly with the Bluetooth in your phone’s settings. Always pair the watch through the app.
- Do not turn off Bluetooth in your phone’s settings.
- If you would like to receive notifications from the app, you must accept the app’s permissions.

SYNCHRONISE DATA WITH THE APP

- After your watch is paired with the app you can synchronise data the watch has recorded.
- Please sync your app daily to avoid loss of recorded data. Data on the watch is reset at midnight every day.
- To sync your data, go to the app home screen and swipe down to sync data with the watch.

SET UP

On your smart watch:

- Swipe down from the home screen and tap the cog symbol.
- Tap “Display” then “Brightness” to set the brightness of the screen.
- Tap “Vibrate & Ring” to set the mode and strength of vibration that will be used for notifications.

On the Limit Smart app:

- Open the app and tap on the cog symbol to enter the Settings menu.
- Set which notifications you would like to receive on your watch.
- Select “Notifications” and set which notifications you would like to be displayed on your smart watch.

Change the language:

- Tap “App Settings”, then tap “Language”.
- Select a compatible language from the list.
- Available languages are English, Portuguese, Arabic, Korean, French, German, Hindi, Italian, Japanese, Simplified Chinese, Polish, Spanish, Turkish.
- This will change the language used on your app and on your smart watch.

OTHER SETTINGS:

Tap on LIMIT-RO at the top of the screen to access “Smart Device Settings”. You will find the following settings:

- Find My Smart Device – your smart watch will vibrate and make a sound so that you can find it.
 - Camera Shutter – Use your smart watch as a remote camera shutter.
 - Set the time format for your watch to 12hr or 24hr format.
 - Add a Reminder – set daily reminders. Your watch will vibrate at the set time to remind you.
 - Turn Do Not Disturb on/off or set it for a scheduled time period. Your watch will turn off notifications and vibration. This can also be set from the Settings menu on your watch.
 - Sync Contacts – Add contact information from your phone to be synced to your smart watch.
- Under “Fitness and Wellbeing” you will find the following:**
- Daily Goal – edit your daily steps/distance/calories/sleep goals
 - Heart Rate Detection – Turn on/off continuous heart rate detection.
 - Cycle Tracking – Set up your watch to track your periods and turn on/off reminders.
 - Health Reminder – Set up Sedentary or Drink Water alerts.

USING YOUR SMARTWATCH

THE SMARTWATCH INTERFACE

- Swipe right to display your recently used functions.
- Swipe right twice to display the main functions list.
- Swipe left to view/add favourites.
- Swipe down to view Bluetooth connectivity and battery level. You can also turn on/off do not disturb mode (moon symbol), turn on low power mode (battery symbol), set the brightness (sun symbol), enter flashlight mode (torch/flashlight symbol), view information (“i” symbol), and enter settings (cog symbol).
- Swipe up to view new messages.

CHANGING YOUR WATCH DIAL STYLE

- On the home screen (the screen displaying the clock) of your watch, press and hold on the middle of the screen.
- Swipe left or right to choose a dial style and tap to select it.

DOWNLOADING MORE DIAL STYLES:

- Open the app and tap the watch face icon in the bottom right of the screen. Here you can browse different dial designs.
- To select a dial and add it to your watch, tap it and then tap “Push”.
- Make sure your watch is close to your phone. The app will display “Loading...” for a few seconds while data is transferred.
- The new dial will then be displayed on your watch.

ADDING A PHOTO TO YOUR WATCH DIAL:

- Open the app and tap the watch face icon at the bottom of the screen.
- Tap “Customise watch face” then tap the green plus symbol.
- Select a photo from your smart phone’s album.
- Once you have selected a photo, tap “Set as watch face”.

FUNCTIONS

Swipe right and tap the green menu icon to enter the functions list. Scroll up or down and tap to select an option.

Activity

- View your steps count, calories, and distance for the day.

Sleep

- The watch will display your total sleep time for the previous night, including the total time of deep sleep and light sleep.
- The watch will measure sleep times between 21:00 – 9:00 the next day

Heart Rate

- Measure your heart rate.

Phone Call

- Make phone calls.

Exercise

- In this mode you can select from 22 exercise modes to record data during the activity.
- Data that is recorded can include time, heart rate, steps and calories burned, depending on which activity is selected.
- Tap on any exercise mode to start the workout.
- Swipe to the right to enter the menu while in an exercise mode. Pause or end the exercise mode from here.
- Select from the list of exercise modes – Walking, running, treadmill, hiking, cycling, badminton, stair climber, elliptical, rower, skipping, golf, workout, yoga, spinning, pilates, aerobic exercise, cricket, boxing, tennis, table tennis, gym, skate.
- Select from additional exercise modes by tapping the plus at the bottom of the list.

Exercise Records

- Shows your exercise activity history for the day.

SpO2 (Blood Oxygen)

- Measure your blood oxygen.

Stress

- Measure your stress level out of 100.

Weather

- After your watch has been connected to the Limit Smart app, it will display local weather information.

Messages

- When connected to your phone via Bluetooth, notifications from your phone will be sent to your watch. View new messages/notifications here.
- Make sure to accept the permissions for push notifications on your phone for this to function correctly.

Shutter

- Use your watch as a remote shutter for your phone camera.

Player

- With your phone connected via Bluetooth, music can be paused, played, and tracks can be skipped through.
- Volume of the music playing from your phone can be adjusted through the watch interface by tapping on the speaker icon.

Relaxation

- The watch will guide your breathing for the duration of the time selected.

Voice Assistant

- Use your smartphone’s voice assistant feature. Requires a smartphone with this feature.

Timer

Alarm

- Add alarms and edit or turn on/off your existing alarms.

Stopwatch

Cycle Tracking

- Turn on “Cycle Tracking” in the “Fitness and Wellbeing” settings in the app to use this feature.

World Clock

- View different time zones. Add these to your watch through “Smart Device Settings” > “World Time” on the Limit Smart app.

Find Phone

Calculator

Games

Settings

CHANGING THE STRAP

- The strap on the smart watch is removable and interchangeable with other 20mm watch straps.
- Turn the watch over and locate the quick release as pictured.
- Slide the quick release across to separate the strap from the watch.

SAFETY AND CARE INSTRUCTIONS

Your smart watch is IP67 rated, meaning it has complete protection from the ingress of dust, and is protected from continuous immersion in water up to a depth of 1 metre for a maximum of 30 minutes. Please note that salt water or certain chemicals in water may damage or weaken the watch seals, especially with repeated exposure.

To ensure your watch stays in good functioning condition it is recommended that you:

- **Do not** press the buttons while your watch is submerged.
- **Do not** use the watch when swimming, bathing, showering or watersports.
- **Do not** attempt to charge the watch while it is wet.

Please note that the watch’s touch screen will not function while submerged in water.

If your watch is exposed to water, always dry it fully with a soft cloth.

If your watch is exposed to any other liquids such as salt water, swimming pool water, soapy water, perfume, sunscreen,

hand sanitiser, cosmetics, or other chemical products; wash it with clean water and dry it fully with a soft cloth.

The watch’s functionality may be affected if these instructions are not followed.

- **Do not** attempt to disassemble your smart watch. This may cause a safety hazard, could damage your watch, and/or affect the water resistance.
- **Do not** use hair dryers, blowers, or any other heated equipment to dry your watch
- **Do not** operate your watch near radiators or heat sources. This could cause damage to your watch.
- **Do not** place heavy objects or exert strong pressure on your smart watch.
- **Avoid** using the watch in extremely high or low temperature environments.
- **Avoid** using the watch in high humidity environments. This could affect the water resistance of the watch.
- **Protect** your smart watch from long exposure to direct sunlight.

Please note that the measurement results of this device are for reference only and are not intended for medical use. Users should always follow the advice of their doctor or other trusted medical professional.

When using your smart watch on aeroplanes, in hospitals, or near medical electronic systems please follow the authority standards and be aware that wireless signals transmitted could impact the functionality of sensitive electronics.
