RACING WHEEL - SWITCH/OLED SET-UP

SCREEN PROTECTOR SET-UP
Before applying the screen protector, use the provided cleaning wipe and cleaning cloth to remove any dirt and dust from your screen

To apply the screen protector, using one hand position the screen protector at an angle as per the image and your other hand to slowly lower onto the screen. Once the screen protector is placed down onto your screen, you will see the glue move slowly across the screen protector

Once applied, give your screen a wipe with a little pressure to remove any bubbles/air pockets

Please note: if you want to re-apply the screen protector because of incorrect positioning, please remove slowly from 2 corners so you don't risk cracking the screen.

Make sure you use the correct screen protector for the correct console:

Switch 2: Largest Screen Protector
Switch/OLED: Next Largest Screen Protector
Switch Lite: Smallest Screen Protector
