Product Description

Sunny - this super light and compact city companion can be used right from birth in lying position or combined with an infant car seat and loaded up to 25 kg. Unlocked with one hand only, the stroller folds away automatically to a mini format that fits almost any car boot and public transports.

This sporty stroller is not only very comfy thanks to backrest and footrest being adjustable into lying position, but also very smooth to drive. The swivelling and lockable front wheels make Sunny very easy to push and steer.

In addition, the large canopy with sun blend protects your child against all weathers. It can be pulled forward to avoid sun, wind or rain from reaching the little explorer. And when it's hot, simply open the zipper that shows a large mesh area for better ventilation.

The 5-point harness, front bumper, and parking brake help keep your child safe at any time, during holiday or day to day life. For transport, Sunny folds away compactly within a matter of seconds.

Our recommendation: With the separately available adapters, you can fix both the iPro Baby (i-Size) and Comfort Fix (ADAC: GOOD) infant car seats on the stroller chassis. This results in a practical Shop'n Drive System for short city trips.

Sunny Data

Product net weight 6,60 kg
