Product Description

This light and compact stroller is chargeable up to 25 kg. Eagle 4S is very versatile as it offers the ultimate comfort in the smallest package. Thanks to lying position, as well as to the possibility of combining it with carrycot or the iPro Baby, as well as the Comfort Fix infant carrier, this sporty pushchair can be used right from birth. Folded away to a small size, Eagle 4S can be comfortably carried over the shoulder.

The softly padded seat is reversible and can be mounted in both directions. Both footrest and backrest can be adjusted into lie flat position, while the canopy with sun shade can be pulled far forward. In addition, the canopy comes with a peek-a-boo window made of net fabric for better air circulation.

The buggy's push handle is soft to the touch and height-adjustable. This way, both small and tall parents have it easy while pushing Eagle 4S. Thanks to the four comfort wheels, as well as the light chassis being suspended, Eagle 4S is very easy to manoeuvre. The front wheels are swivelling, but can also be locked. The wheels' white line ensures that you will be better seen when it's dark. The padded and height-adjustable 5-point harness, the bumper bar, as well as the parking brake help keep your child safe.

The light aluminium pushchair can be folded away very compactly. This allows you to transport Eagle 4S even in small cars, store it at home or easily carry the buggy over your shoulder by the padded carry strap.

Our hint. In complement to Eagle 4S, we also offer the adequate carrycot, as well as the hauck Comfort Fix and hauck iPro Baby infant carriers (separate adapters for stroller needed) and the ISOFIX base of each. A true all-rounder.
