8 INCH AIR CIRCULATOR FAN

Model number TX-AC804R

BUSH

210 mm

142 mm

Please read the instructions fully before use.

Safety information

Important- please read the instructions fully before operating.

For household and indoor use only.

- This appliance must be used for its intended purpose only and operated as instructed in this user manual.
- Use only the voltage specified on the rating plate of the appliance.
- Do not connect the appliance to the mains voltage until completely assembled and adjusted.
- **This appliance can be used by children aged 8 years and above and persons with reduced physical, sensory, or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.**
- Children should be supervised to ensure they do not play with the appliance.
- To protect against electrical shock do not immerse cord, plugs, or the main body in water or other liquids.
- Check the appliance before each use for signs of wear or damage. If damaged, discontinue from use immediately and do not use until the appliance has been inspected and approved for use by a qualified service person.
- The product is not to be used if it has been dropped or there are visible signs of damage.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent, or a similarly qualified persons in order to avoid hazard.
- Never attempt repairs yourself. Repairs to electrical appliances should only be performed by a qualified electrician. Improper repairs may place the user at serious risk and will invalidate the guarantee, take the appliance to a qualified repair agent.
- This appliance is designed for indoor; household use only.
- Do not insert fingers or other objects into the fan during use, this can

cause personal injury and damage.

- Unplug the appliance when not in use, when moving the appliance and before cleaning.
- Do not place the appliance on an unsteady surface.
- Keep away from open flames such as lit candles, open fires, cooking, and other heating appliances.
- Do not operate the fan in the presence of explosive and/or flammable fumes.
- Do not place the fan or any parts near an open flame, cooking, or other heating appliance.
- Do not hang or mount fan on a wall or ceiling.
- Do not operate if the fan housing is damaged.
- Do not allow fan to be directed onto children, the elderly or infirm for a long period of time.
- Do not use the fan in areas of high humidity, very dusty, or in temperatures higher than 40°C.
- Do not use the fan near an open window as rain may cause an electric shock hazard.

BATTERY WARNING

- CAUTION – Danger of explosion if batteries are incorrectly fitted / replaced.
- Batteries should be installed by an adult. Keep new and used batteries away from children.
- Only use 'AAA' 1.5V batteries in this remote control.
- Be sure to insert correctly taking care to observe the correct polarity (+ and -).
- Use only batteries of the same or equivalent type as recommended.
- Do not recharge non-rechargeable batteries.
- Never mix old and new batteries (replace all batteries at the same time).
- Never try to crush. Puncture or dismantle batteries.
- Do not short-circuit the supply terminals.
- Always remove exhausted or dead batteries from the product.
- Remove batteries from the product before extended storage.
- Dispose of used batteries responsibly at local authority household waste recycling facility.
- DO NOT dispose of batteries in a fire as the batteries may explode.
- In the event of a battery pack leaking, do not allow the liquid to come in contact with the skin or eyes. If contact has been made, wash the affected area with copious amounts of water and seek medical advice.

Getting to know your air circulator fan

Note: 2 x AAA batteries for the Remote Control are not included.

Assembling your fan.

Remove all parts from the box and remove all packaging.

For tall pedestal fan:

- Connect Tube 1 (E) and Tube 2 (F) by twisting them together and then secure the assembly to the Base. Next, attach the assembled fan head to the top by twisting until firmly in place.

- For a medium height fan, use only the Tube 1(E)

For desktop fan:

Twist the already assembled fan head onto the base until secure.

INSTRUCTIONS FOR USE

Before using your fan.

Make sure you have read and fully Understood the safety instructions before operating the fan.

- Choose a safe, horizontal, stable surface to place your desk fan and position the power cord so not to create a trip hazard.
- Plug the power cord into a suitable power socket.

CAUTION: DO NOT COVER THE FAN HEAD

Using your fan

- 
ON/OFF button: Press this button to switch the fan on, the fan will run at low speed. Press again to switch your fan off into standby mode.
- 
SPEED button: Press the button to adjust the level of wind speed. Low / Middle / High. The selected speed will show on the fans display.
- 
Oscillation - Left & right button: [(OSC (L/R))] Press to activate the fan head to move left to right. Press button again to stop this oscillation.
- 
Oscillation – Up & down button: [(OSC (U/D))] Press to activate the fan head to move up and down. Press button again to stop this oscillation.
- 
MODE button: 3 modes available for selection. (Icon will show on display).

Nature Mode:

If **HIGH** speed is selected – automatically rotate between all 3 speeds. (3-2-3-1-2-1-3-2) switching from one to another every five seconds.

If **MID** speed is selected – automatically rotate between 2 speeds (2-1-2-1-2-1-2-1) switching from one to another every five seconds.

If **LOW** speed is selected – automatically rotate between 2 speeds (1-1-2-1-1-1-2-1) switching from one to another every five seconds.

Sleep Mode:

If **HIGH** speed is selected. The fan will operate in 'High speed nature mode' for 30 minutes, then 'Mid speed nature mode' for 30 minutes. For the remaining time it will operate in 'Low speed nature mode' setting.

If **MID** speed is selected. The fan will operate in 'Mid speed nature mode' for the first 30 minutes. For the remaining time it will operate in 'Low speed nature mode' setting.

If **LOW** speed is selected. The fan will operate in 'Low speed nature mode'.

Normal Mode:

This setting allows for manual speed selection, which can be changed at any time. Manual mode is in operation when 'Nature or Sleep' icons are not on showing on the display.

TIMER button: Press the timer button to set the fan to turn off after a specific duration. Each press increases the operating time by one hour, up to a maximum of 9 hours.

Screen Display: During use, the screen display will automatically turn off after 36 seconds. The display will light back up when any button is pressed.

Using the remote control:

Follow the manufacturer's instructions when installing new batteries.

Only use 'AAA' 1.5V batteries in this remote control.

To install batteries, the screw on the battery cover should be removed as indicated in the images below. Batteries must be placed according to the correct polarity (+ and -). After inserting the batteries, slide the cover back into place and secure the screw.

When operating the remote control, align the transmitter at the front of the remote with the receiving window on the product.

(Note: The receiving window is located above the buttons on the device's front panel.)

The remote control typically functions within approximately 5 meters from the front of the product, with an allowable deviation angle of up to 30 degrees.

Direct sunlight on the receiving window should be avoided, as it may affect performance.

Handle the remote control carefully, avoiding impacts and drops.

If the remote control will not be used for an extended period, remove the batteries and store them in a sealed container to help prevent damage and minimize battery discharge.

Care and Maintenance.

The fan requires little maintenance and contains no serviceable parts. Do not attempt to dismantle the fan motor body yourself. The fan is permanently lubricated and will not require additional lubrication.

- Always turn off and unplug the fan from the mains supply before cleaning.
- Use only a soft slightly damp cloth followed by a dry cloth, to gently wipe the outer surfaces on the fan to clean.
- Do not try to remove the fan grill. To clean between the bars, it is recommended using a vacuum cleaner or compressed air to gently remove the dust.

Storage.

- When not in use, clean the fan before storing away in the original or similar sized box.
- Store the fan in a safe, clean, and dry place, away from direct sunlight and out of reach of children.

Recycling electrical products.

You should now recycle your waste electrical goods and in doing so help the environment. This symbol means an electrical product should not be disposed of with normal household waste. Please ensure it is taken to a suitable facility for disposal. Visit www.recycle-more.co.uk, click on "bank locator" and enter your postcode to find your nearest recycling site.

Plug and wiring advice.

The wires in this mains lead are coloured in accordance with the following UK electrical code:

BLUE = NEUTRAL
BROWN = LIVE
GREEN + YELLOW = EARTH

Non-rewireable plug

This appliance may be fitted with a “non - rewireable” plug. If you need to change the fuse in a “non - rewireable” plug, the fuse cover must be refitted. If the fuse cover is lost or damaged, the appliance must not be used.

Rewireable plug.

The colours of the wires in the mains lead of this appliance may not correspond with the coloured markings identifying the terminals in a rewireable plug. **Rewireable plugs should only be replaced by a suitably competent person. If in doubt, consult a qualified electrician.**

The BLUE wire must be connected to the terminal marked with the letter N
The BROWN wire must be connected to the terminal marked with the letter L
The GREEN & YELLOW wire must be connecting to the terminal marked with the letter E or the earth symbol
