Safety and Care Advice

Important – Please read these instructions fully before starting assembly

Check you have all the components and tools listed on the front cover and pages 3.

Remove all fittings from the plastic bags and separate them into their groups.

Keep children and animals away from the work area, small parts could choke if swallowed.

Make sure you have enough space to layout the parts before starting.

Do not stand or put weight on the product, this could cause damage.

Assemble the item as close to its final position (in the same room) as possible.

Do not place furniture directly in front of radiators, fires or any other source of heat.

Assemble on a soft level surface to avoid damaging the unit or your floor.

We do not recommend the use of power drill/drivers for inserting screws, as this could

damage the unit. Only use hand screwdrivers.

Dispose of all packaging carefully and responsibly.

General care and maintenance

Take care when moving furniture - dragging pieces across the floor will damage the joints.

Avoid exposing your furniture to direct and prolonged periods of sunlight and heat sources as fading and cracking may occur.

Take care to prevent sharp objects e.g. toys, buckles and heels from coming into contact with your furniture, and avoid contact with chemicals e.g. cosmetics or hairs products which may permanently mark the surface.

Cleaning and care

Dust regularly with a clean dry cloth.

Wipe up any spills immediately with a damp cloth and then dry the surface with a clean dry duster.

Repeat this procedure for periodic cleaning.

Remove stubborn stains with a weak washing up liquid solution and a damp cloth and dry after with a clean cloth.

The use of furniture polish or spray is not necessary or recommended.

Never use abrasive or corrosive cleaning agents.

Always use place mats and coasters to protect the surface from moisture and heat.
