

## Energy fiche

|   |   |                      |                    |
|---|---|----------------------|--------------------|
|   | Brand                                   |                      | <b>BUSH</b>        |
|   | Model                                   |                      | BGC60DW<br>BGC60DB |
|   | Type of Oven                            |                      | GAS                |
|   | Mass                                    | kg                   | 43,0(+/-2)         |
| Upper Cavity  | Energy Efficiency Index - conventional  |                      | -                  |
|   | Energy Efficiency Index - fan forced    |                      | -                  |
|   | Energy Class                            |                      | -                  |
|   | Energy consumption (gas) - conventional | MJ/cycle - kWh/cycle |                    |
|   | Energy consumption (gas) - fan forced   | MJ/cycle - kWh/cycle | -                  |
|   | Heat Source                             |                      | GAS                |
|   | Volume                                  | l                    | 33                 |
| Lower Cavity  | Energy Efficiency Index - conventional  |                      | 80,0               |
|   | Energy Efficiency Index - fan forced    |                      | -                  |
|   | Energy Class                            |                      | A+                 |
|   | Energy consumption (gas) - conventional | MJ/cycle - kWh/cycle | 5,00<br>1,39       |
|   | Energy consumption (gas) - fan forced   | MJ/cycle - kWh/cycle | -                  |
|   | Heat Source                             |                      | GAS                |
|   | Volume                                  | l                    | 62                 |
|   | Number of cavities                      |                      | 2                  |
|   | This oven complies with EN 15181        |                      |                    |
| <p>Energy Saving Tips</p> <p>Oven</p> <ul style="list-style-type: none"> <li>- Cook the meals together, if possible.</li> <li>- Keep the pre-heating time short.</li> <li>- Do not elongate cooking time.</li> <li>- Do not forget to turn-off the oven at the end of cooking.</li> <li>- Do not open oven door during cooking period.</li> </ul> |   |                      |                    |
