GAMING OPTICAL MOUSE

V25S

With VPRO V25S you will be perfectly equipped for any match. Its ergonomic design ensures your hand remains relaxed while pulling all-night epic gaming sessions. V25S sets gamers' hearts racing with its adjustable 7000 DPI optical sensor, dedicated DPI Fast Switch and onboard memory. Professional gaming optical engine,

with 5300 FPS image processing speed, 80 inch/second tracking speed and up to 1000Hz USB polling rate, all guarantee accurate navigation. Likely the most eye-caching feature of V25S is the cool lighting pattern system with up to 16 million colors, which can also be customized to suit your preferences.

FULLY ADJUSTABLE 7000 DPI GAMING SENSOR
Precise down to the last pixel: With the latest generation of VPRO Gaming Sensor, accuracy is no longer left to chance. Adjustable from 500 DPI to 7000 DPI, and with an image-processing rate of 5300 FPS, it is the perfect match for your incredible skills.

LED MULTI-COLOR LIGHT SYSTEM WITH 16 MILLION COLORS
What does it do? It turns blue, green, or... Your V25S has an LED multi-color light system which lets you customize the appearance of your mouse in many ways as well as to suit your preferences. V25S features an APM-lighting mode that reflects your actions per minute, full spectrum mode and proximity sensing mode for a spectacular light show.

ONBOARD MEMORY
Ready to rumble: The onboard memory stores mouse configuration (macro, DPI setting and breathing light mode) in the game mode, which are always on standby ready to use, giving you the perfect configuration regardless of the computer you're using your V25S with.
