### IMPORTANT

If you are fitting your bathroom organiser between the ledge of a bath and the ceiling please take into account that the ledge may be slightly lower when the bath is full of water and in use it is therefore advisable to fill the bath with water before installing the pole.

When fixing the ceiling bracket onto the ceiling, make sure the bottom of the pole touches the surface of the bath to enhance the stability of the pole. This will also allow a more proper installation of the ceiling bracket.
