1. Assembly Instructions

Equipment required: Scissors and a Phillips (cross head) screwdriver.
For easy assembly lay tubes on a large flat surface whilst following stages 1 to 4.

(1.) Slot together upper tube assembly parts a & b, (2.) then parts c & d. Ensure each spring button clicks into each placement hole. (3.) When successfully assembled the shelf clips should be level on either side (see image below).

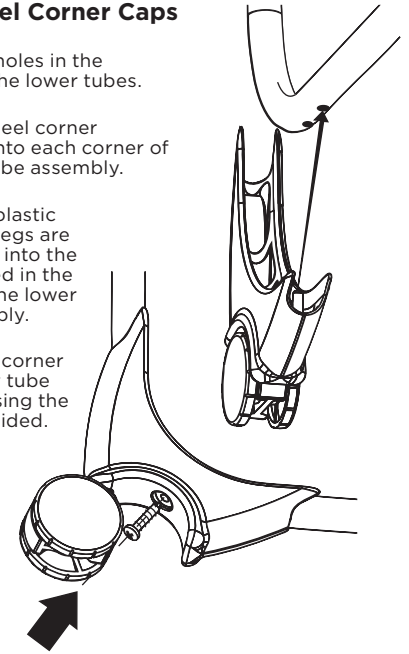

2. Wheel Corner Caps

Locate the holes in the corners of the lower tubes.

Attach a wheel corner assembly onto each corner of the lower tube assembly.

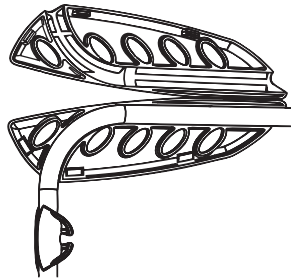

Ensure the plastic alignment pegs are firmly fitted into the holes located in the bottom of the lower tube assembly.

Screw each corner to the lower tube assembly using the screws provided.

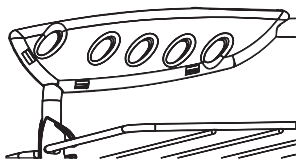

3. Clothes Hanger Holder

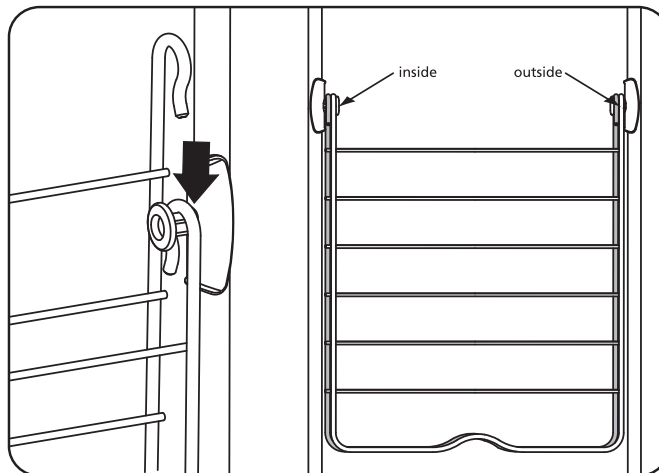

Attach the 2 coat hanger holders to the top of the pivoting tubes (see Fig. a).

Hold in position and fold the top part over making sure all clips are engaged.

4. Fitting the Flat Dry Shelves

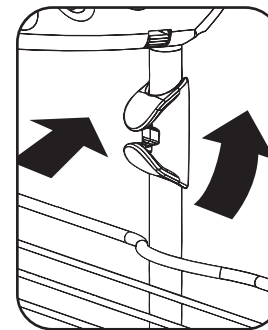

a. With the shelf held in a vertical orientation as shown, clip the shelf hooks securely onto the support pins on either side. Clip the opposite shelf onto the same support pins.

b. IMPORTANT
Ensure each shelf side has one hook inside and one hook outside of the support pins, as shown above.

5. Using the Flat Dry Shelves

To locate the wire shelves in a horizontal position lift the shelf and depress the outer wire to locate into the clip.

To disengage push the outer wire inwards.

6. For storage, disengage all shelves and twist the frame allowing it to fold flat.
