How to Check the Battery Level

Press the power button on the Slim Juice® and check the number of LED lights shown.

Interpretation of the LED Indicator

Charging

- ○ ○ ○ = Up to 25% charge
 - ● ○ ○ = Up to 50% charge
 - ● ● ○ = Up to 75% charge
 - ● ● ● = Fully charged.
- You can disconnect from the charger or PC

*Charging Time: 3-4 hours

Discharging

To check the remaining battery level of your Slim Juice® power bank, view how many LED's are lit.

Note: It is normal for the Slim Juice® and your device to get warm during charging and discharging. They may get even warmer if you use your device to play videos or for gaming while charging.

How to Charge Your Slim Juice®

1. Plug the Slim Juice® into your computer or USB compatible wall charger with 2A current output (DC 5V/2A) via the included micro USB cable.
2. When the Slim Juice® is fully charged, disconnect the USB connector.
*Charging time depends on the output power of the charging device.

Charging devices with the Slim Juice®

1. Connect your device to the USB output port on the Slim Juice® with the Micro USB cable provided or use the original cable that came with your device.
2. Press the power button and Slim Juice® will automatically start charging your device.
3. When your device is fully charged, disconnect the cable. The Slim Juice® will shut down automatically after being idle for 3 minutes.

In order to charge your device, you will need to have a USB cable compatible with your device.

These come standard with all Apple products as well as most other smartphones, tablets and MP3 players. Plug the Standard USB end into the Slim Juice®. Now, use the other end of cable and plug it into the device you wish to charge. Once charged, simply unplug your device and store your Slim Juice® until you are ready to charge again.

Note: The maximum total output current of the Slim Juice® is 2.1A. Power cannot be discharged to the mobile device requiring amperage of more than 2.1A.

Note: Different device manufacturers have different requirements to charge their products, they may also use different cables to charge their devices. These manufacturers may vary the specifications of how to charge a device and they may also introduce other charging methods on their new products, therefore we can not guarantee that the Slim Juice® will be able to charge all devices. Juice® always suggests that you use the original charging cable included with your device to charge your devices.

Lets get techy

Input	Micro USB (DC5V/2A Max)
Output	USB (DC5V, 1A/2.1A)
Dimensions	120 x 66 x 12 mm
Charge Time	3-4 hours
