In the words of Ollivander, “The wand chooses the wizard”, and these new Light Painting Wands from the WOW! Stuff collection are no exception. Each wand features an ultra-bright LED tip, which is activated by a hidden button on the handle of the wand. In itself this is an authentic wand replica when activated, but the real magic begins when you download the free WOW! Stuff Light Painting App onto your smartphone or tablet. Use the app to film yourself, or other wizards and witches, as they use the wand in low light to produce extraordinary images! Paint your name in the sky, draw your own Petronus, replicate duelling battles or recreate scenes and practice your best ‘*expelliarmus*’, ‘*stupefy*’ and ‘*expecto patronum*’ spells!

Harry Potter and Hermione Granger’s wands are ideal for Harry Potter fans while fans of the Fantastic Beasts and Where to Find Them movie series can opt for Newt Scamander’s wand for a truly authentic magical experience.

These collector quality, replica Light Painting Wands are fully licensed by Warner Bros. and are hand painted and cast in a high grade resin to give them a weight and balance that’s authentically pleasing in the hands of all wizards and witches. The wands have been designed using scans of the original film props, creating true replicas of those seen on screen, right down to the scars and patinas! In Harry Potter lore, a quasi-sentient wand matches a wizard or witch’s character. How they look speaks volumes about who is casting the spell. So choose wisely, or let the wand choose you.

The free WOW! Stuff Light Painting App is available for both iOS and Android, and lets you create stunning works of art that can be shared from your smartphone or tablet directly, or uploaded to social media platforms. #lightpaintingwizard #wowstufflightpainting
