

# Packed with ways to ease your load

**ecobubble™**  
Cleverly mixes air, water and detergent to create bubbles that wash your clothes at cooler temperatures, for greater savings.

**Hygiene Steam**  
Releases hot steam, eliminating 99.9% of bacteria and inactivating allergens\*, banishing more than just stains and odours.

**Digital Inverter Motor**  
Delivers superior energy efficiency, minimal noise and long-lasting performance, with the added peace of mind of a 10-year warranty.

**Drum Clean**  
Keeps the inside of your washer hygienically clean and removes 99.9% of odour causing bacteria† from the drum, without using any detergents.

**StayClean Drawer**  
Rinses away all the detergent for you. With no soap build-up, your detergent flows more freely into the drum for a cleaner, fresher wash.

**Bubble Soak**  
Whether it's cotton, synthetics or baby clothes, add a 30-minute bubble soak to your wash and deal with those stubborn stains.

## Loads Smarter

**Smart Control +**  
Our intelligent, easy-to-use control panel remembers your laundry habits and suggests your favourite cycles. While the SmartThings app\* lets you schedule your wash from anywhere.

**Laundry Planner**  
Control and schedule your wash from your phone, so it's freshly finished when you get home, with Laundry Planner through the SmartThings app.

**Laundry Recipe**  
Program the right wash for every load with Laundry Recipe through the SmartThings app.

## Our range is awash with other innovations too

**AddWash™**  
Whether it's that stray sock or extra softener, with AddWash™ door you can quickly drop in anything extra during the wash‡.

**QuickDrive™**  
Power through your wash for a full clean in just 39 minutes‡. Spend less time washing and more time wearing.

**Auto Dose**  
No more guessing how much detergent to use in your washing machine. Auto Dose knows just the right amount for every load.

**Auto Optimal Wash**  
Take the guesswork out of the perfect wash. Four sensors weigh your wash load then adjusts the rinse time and water to suit.

## Find the perfect washing machine for you

\* Testing done by Intertek on Staphylococcus aureus and Escherichia coli and Dermatophagoides farinae Hughes, on 100% cotton, 3kg load, with standard powder detergent. Individual results may vary.  
† Eliminates 99.9% of bacteria from the inside of the washing machine and removes dirt from the rubber gasket. Based on testing by Intertek of the Drum Clean cycle.  
‡ AddWash™ door can be opened at any time when the drum temperature is below 50°C.  
‡ Using Super Speed Cycle with 5kg load.
