This diagram shows the exploded view of a baby bathtub. The main components are:

- Part A:** The bathtub tub, shown at the top. It is a large, rounded basin with a flat lid. The lid features a cartoon pig character in the center. It has four small feet at the base and two handles on the sides. The quantity is **x1**.
- Part B:** The bathtub base, shown at the bottom. It is a rectangular piece with rounded corners and four small feet. It has two handles on the sides. The quantity is **x1**.
- Part C:** A circular lid or cap, shown on the right. It has a small circular hole in the center. The quantity is **x4**.

The quantities are indicated by the labels **x1**, **A x 2**, **B x 4**, and **x4** next to their respective parts.

The diagram illustrates the assembly of the baby stroller seat unit in three main steps:

- Step 1:** Shows the initial assembly of the seat unit. A canopy is attached to the frame. Two wheels (labeled 'A') are shown being attached to the sides of the seat. A close-up shows a hand tightening a screw (labeled '1') on the side of the seat. The seat is then shown in two positions: 'a' (reclined) and 'b' (upright).
- Step 2:** Shows the seat unit being attached to the stroller frame. The seat is shown being lowered into the frame, with a close-up showing a hand tightening a screw (labeled '1') on the side of the seat.
- Step 3:** Shows the final assembly of the stroller. The seat unit is attached to the frame. A canopy is shown being attached to the front of the seat. A close-up shows a hand tightening a screw (labeled '1') on the side of the seat. The final assembly is shown in two positions: 'c' (reclined) and 'd' (upright).
