Instruction manual

Small HEPA air purifier
Model number DH-JH020UK-B00

Please read these instructions fully before use

Safety information

Important- please read the instructions fully before operating.

For household and indoor use only.

Read through all the instructions carefully before starting to use the appliance. Keep this manual in a safe place for future reference.

- This appliance must be used for its intended purpose only and operated as instructed in this user manual.
- **This appliance can be used by children aged 8 years and above and persons with reduced physical, sensory, or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.**
- **Children should be supervised to ensure they do not play with the appliance.**
- To protect against electrical shock do not immerse cord, plugs, or the main body in water or other liquids.
- Check the appliance before each use for signs of wear or damage. If damaged, discontinue from use immediately and do not use until the appliance has been inspected and approved for use by a qualified service person.
- The product is not to be used if it has been dropped or there are visible signs of damage.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent, or a similarly qualified persons in order to avoid hazard.

- Never attempt repairs yourself. Repairs to electrical appliances should only be performed by a qualified electrician. Improper repairs may place the user at serious risk and will invalidate the guarantee, take the appliance to a qualified repair agent.
- This appliance is designed for indoor; household use only.
- Unplug the appliance when not in use, when moving the appliance and before cleaning.
- Do not place the appliance on an unsteady surface.
- Do not cover the appliance as this can block the air flow and cause overheating.
- Do not use the appliance in an area likely to be splashed for instance near a bath, shower or swimming pool.
- Do not use the air purifier where water can drip on to the appliance.
- Care must be taken if using an extension cord. Extension cords must be grounded and able to deliver the appropriate voltages to the appliance.
- Never insert your fingers or rods into the air outlet. Take special care to warn children of these dangers.
- Do not use the appliance in an environment with flammable and explosive materials.

Setting up your air purifier

Before first use you will need to access the power adapter and HEPA filter which has been packed in the machine.

- 1.Remove the base cover from the unit, lift out the HEPA filter and take the power adapter out.
- 2.The HEPA filter will need the plastic bag removed before loading it back into the air purifier.
- 3.Insert the power adapter at the back jack and connect to the power supply.

Before using your air purifier

Make sure you have read and fully understood the safety instructions before operating. Choose a safe, horizontal and stable surface to place your air purifier.

NOTE: Never run an air purifier with the filter sealed in its plastic packaging.

Recommended Room Size:

This air purifier is designed for optimal performance in rooms up to 20m²

Using the unit in a larger space may reduce the efficiency.

Getting to know your air purifier

- 1: Air outlet
- 2: Control panel
- 3: Rear cover
- 4: Front cover

- 5: Power adapter
- 6: HEPA 13 & Carbon Filter
- 7: Base cover

Control panel

Power Button

Press the power button to turn the device on or off.

Fan Speed Button

Press to control the fan speed between Low - Medium - High - Sleep.

Sleep Mode

In sleep mode, the machine operates at the lowest fan speed.
NOTE: The screen will turn off in sleep mode. With only the moon icon showing.

Lock Button

Press and hold the fan speed button for 3 seconds to activate or deactivate the child lock function.

Timer Button

Press to set the timer for 2hr, 4hr, 8hr or 12hours. The machine will automatically shut down when the timer ends.

Silent Button

Press and hold the Timer button for 3 seconds to turn the buzzer tone on or off.

Light Button

Briefly press the button to turn the light on or off.

The air purifier features two lights:

- Upper light: located on the top cover.
- Lower light: located inside the lower section of the air purifier.

Press the Light button repeatedly to cycle through the following settings: Upper light on - Lower light on - Both lights on - Both lights off.

NOTE: When the light is turned off, the display indicators will also turn off when not in use to prevent light interference.

Reset filter Button:

When the filter life indicator lights up, it is time to replace the filter. After replacing, press and hold the button for 3 seconds to reset. The indicator will turn off upon successful reset.

NOTE: To maintain the quality of air purification, expect the filter to be replaced typically between 3-6 months depending on frequency on use.

How to replace the filter and reset the filter life cycle

Check Filter

When the indicator  lights up, please check the filter. The indicator typically activates within 3-6 months, depending on your air purifier usage frequency and the environment. If the filter appears relatively clean during the check, replacement may not be necessary. However, if it's clogged with dust, please replace it with a new filter.

Replacing the filter

Remove the old filter from the machine. Install a new original filter.
(Note: To ensure optimal performance, please purchase original filters from the official website.)

Filter reset procedure

After replacing the filter, press and hold the  button for 3 seconds. The indicator light will blink 3s and then turn off, indicating a successful reset. The machine will restart the filter life cycle.

Time to change the filter

Simply order a replacement from Argos using catalogue (CAT) number 9973042 to keep it performing at its best.

Cleaning & maintenance

Before performing any cleaning or maintenance, make sure the air purifier is switched off and unplugged from the mains power supply.

Cleaning the appliance

Clean the exterior with a soft dry cloth. If the appliance is extremely dirty, use a mild cleaning agent. Wipe the air purifier with a slightly damp cloth, then dry with a soft dry cloth.

Never spray the appliance with water.

Do not use acidic or alkaline solvents to wipe the appliance as they may cause discolouration or damage.

Filter Cleaning

For optimal performance, clean the outer side of the filter every 2-4 weeks using a soft brush or vacuum. This helps improve efficiency and prolongs the filter's lifespan.

WARNING: Do not clean the filter with water or other liquids.

Storing

- Store the appliance in an upright position, in a safe, clean, and dry place, away from direct sunlight and out of reach of children.
- Do not wrap the power cord and plug around the appliance as this may cause the insulation to weaken or split.

Troubleshooting

If the product does not operate or does not operate properly, first check according to the following list. If the problem is not listed below or the air purifier is still not working correctly, stop using it. Please return the product to your nearest Argos store, or contact Argos Customer Services for support.

Problem	Possible Cause	Solution
