RILEY SMART BEDSIDE TABLE ASSEMBLY INSTRUCTIONS

Thank you for purchasing the RILEY SMART BEDSIDE TABLE.Please read the instructions carefully to ensure safe operation of the product.

Size:42.5x40x52cm

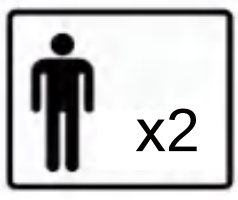

PLEASE READ this sheet prior to assembly to familiarise yourself with the various stages of construction.

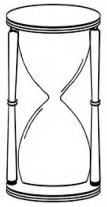

Carefully open the pack supplied and check the contents agains the parts and fittings check list. Do not destroy any of the packaging until you are certian that you have all the necessary parts for the assembly.

CAUTION: There are small components used in the construction of this unit. These loose items should be kept away from young children whilst assemblig your unit to avoid the danger of choking hazards.

Tools Required

Warnings

- Do not place any liquid-filled containers on the bedside table, as accidental spills may cause damage to the product.
- Do not handle cables, adapters, LEDs or plug with wet hands to avoid the risk of electric shock or damage to the product.
- Not intended for use as the primary lighting source in an indoor environment.
- Protect your eyes by avoiding direct contact with the LEDs.
- If you notice any signs of damage to the LEDs or components, discontinue use immediately and contact GFW for assistance.
- mains-powered cables provided to power the bedside table must be kept clear of areas where they could be walked on, as this poses a safety risk and may lead to accidents.
- Keep young children away from live electrical components. If there are young children in the home, always disconnect the power at the wall socket when not in use for added safety.
- This product should not be used by children or by individuals with light-sensitive conditions.
- Never touch live electrical components such as the plug whilst in use. If inspection is required, always disconnect the plug from the mains power first. Ensure the power socket is always easily accessible in case you need to switch off power quickly.

CARE INFORMATION

- Do not clean the light system using detergents, abrasives, or any other harsh substances.
- Do not use the light system in proximity to flammable, explosive, or reactive materials.
- Always unplug the bedside table from the mains power before relocating or cleaning.
- Routinely check all cables for any signs of wear or damage. If any damage is detected, discontinue use immediately and contact GFW.
- Do not expose the bedside table to excessive heat; ensure it is kept at a safe distance from radiators and other heat sources.
- If the electrical components will not be used for an extended period, ensure the cables, adaptors and plug are protected from dirt and corrosion.

Additional Warnings and Information

Risk of eye damage! Never stare directly at the LED.

The light is intended for use only in dry indoor environments.

Mains adapter rated voltage:100-220VAC, 50-60Hz

LEDs:2835 mode1-12V-8MM-120 lights

Capacity:18W Protection class:VO

Electrical Waste Disposal and Recycling

The crossed-out wheelie bin symbol indicates that the item should **NOT** be disposed of with regular household waste.

Improper disposal of electronic waste releases toxins like lead and mercury, polluting air, soil, and water, harming health and ecosystems, and wasting valuable materials. Recycling prevents this damage and conserves resources.

Dispose of waste electrical components separately, from household waste by taking them to an authorized collection point.

Please check the following before contacting GFW if the bedside table fails to operate:

. If there is no mains voltage. Check fuse. Contact a qualified electrician.

. Plug supplied and power socket have become disconnected.

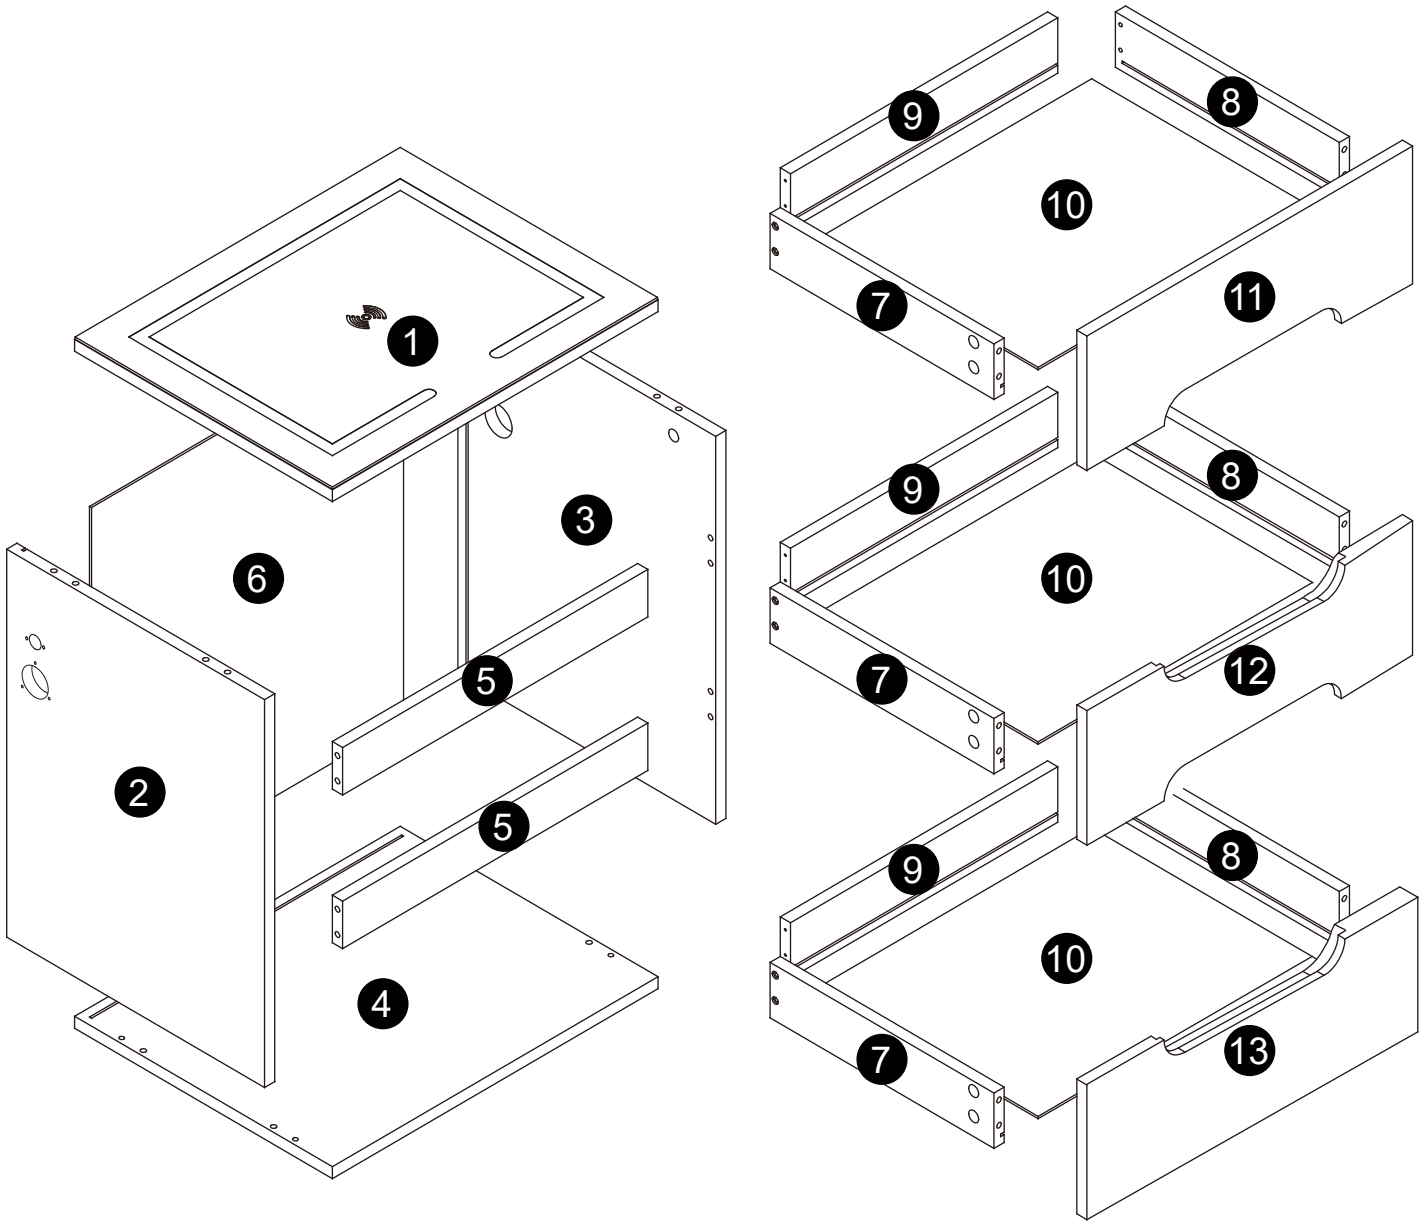

. Part O has become disconnected from part ①.

. Part P has become disconnected from part I.

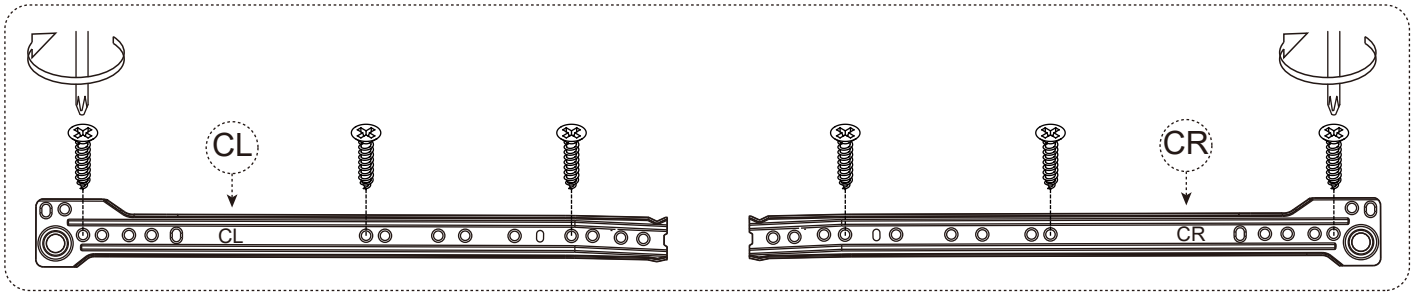

Please note that any unauthorized or improper repairs to the electrical components within this product will void the product warranty and may result in additional charges.

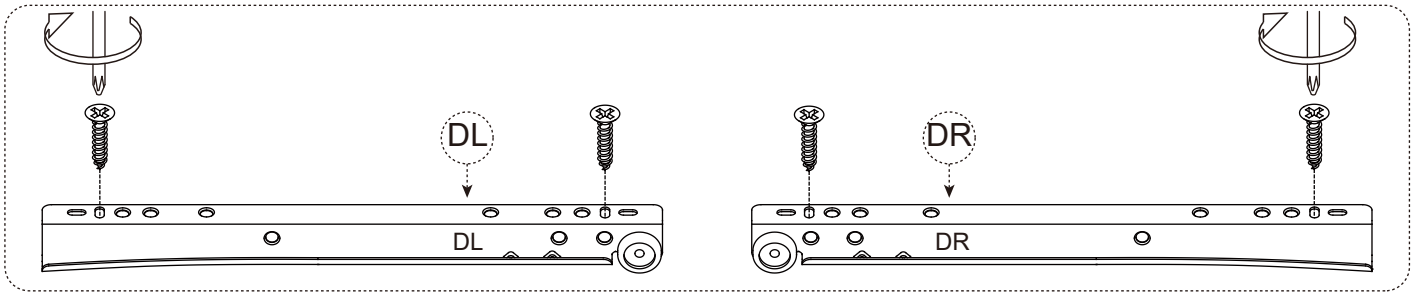

RILEY SMART BEDSIDE TABLE ASSEMBLY INSTRUCTIONS
