rapoo

Multi-mode Wireless Optical Combo Set

8100M

8100M desktop set is more than a worthy successor of the hot-selling X8100. This wireless combo, comprising a keyboard and optical mouse, transmits using Rapoo's multi-mode wireless connection – via reliable 2.4 GHz wireless transmission, Bluetooth 3.0 or Bluetooth 4.0 (Smart) – enabling you to connect simultaneously to multiple devices and switch (pair automatically) among them. In addition to sleek new

design, the keyboard features multimedia keys for quick access and convenience. The mouse in this set boasts a high-performance 1300 DPI tracking engine for extra smooth and accurate pointer control, while its ergonomic design makes it ideal for use both in the office and at home.

► Multi-mode wireless connection

Interference-free wireless options: The smart switch between Bluetooth 3.0, 4.0 and 2.4 GHz ensures stable wireless transmission with up to 10 meters range and 360° coverage. You can still use your keyboard regardless of USB port shortage or the loss of receiver.

► Instant switch among multiple connected devices in one click (Automatic pairing)

Connect to all your devices: 8100M automatically pairs the working device. It simultaneously connects to multiple devices, and easily switches among them in a click of a button. It simplifies activities across devices and meets multi-tasking requirements.

► 1300 DPI Invisible tracking engine

Enjoy total control: with the advanced 1300 DPI invisible tracking engine, accuracy is no longer left to chance. You will enjoy responsive and smooth cursor control on practically every surface.

► Up to 12 months battery life battery

Low energy consumption: Rapoo's energy-saving technologies, combined with the on/off switch, enable you to use the keyboard continuously for up to 12 months and the mouse for up to 9 months.
